Vol. 3—No. 84 [THREE SECTIONS] GLENDALE, CALIFORNIA, SATURDAY, APRIL 7, 1923 [20 PAGES] THREE CENTS

Our City comment & discussion by THOMAS D. WATSON

Vital Matters Up for Consideration Before Glendale Voters

ON Tuesday next an election is to be held in Glendale. This election is of the utmost importance. Every voter should let nothing interfere with the casting of a ballot.

First—We are to select two men out of seven candidates for city councilmen. This selection should be done with a great deal of care. Critical times are ahead of us. There are many important problems that of necessity must be answered soon. It behooves us to elect men who are best capable of handling the problems to the best interests of our city. For the members of the board of education there is no contest.

* * *

THERE are six proposed charter amendments to be considered. They were drawn up by the city attorney on instructions from the city council. Two of these we think should be defeated. These are Nos. 1 and 4. As No. 1 reads on the ballot it does not look so bad. A careful study convinces us that it should be rejected. If passed, the city council would have authority to embark the city in several business undertakings. Anything that could be construed to be a public utility could be purchased and operated by the city. Public utilities would include telephone, telegraph or other means of communication, street railway, bus or other means of transportation; gas, electric light, water, etc.

* * *

AMENDMENT number four cuts down the time limit on passing ordinances from five days to two days. There is absolutely no justification for this amendment. Five days is short enough time. A reduction of this period would make it difficult for any body of citizens to make effective protest against any proposed ordinance. Amendment number four should be added to number one and defeated. These amendments are propositions Number 1 and 4 on the ballot.

* * *

PROPOSITION No. 7 is to authorize the City Council to transfer through an ordinance, a piece of ground owned by the city to the American Legion for a consideration of $100.

This plot of ground is in the foothills, in the northern limits of Glendale. It was formerly used as a reservoir. The American Legion wants this ground to use in the erection of a home. We heartily recommend a favorable vote on this proposition. The American Legion Post Number 127 is an organization comprised of our boys and the least we could do for them would be to give them this ground. Vote "yes" and help do it!

* * *

PROPOSITION Number 8 is for the purchase of land for airport and water bearing purposes. Amount of bonds necessary, $49,000. We think that from a standpoint of being a good speculative buy and from an advertising viewpoint it would be a good purchase. A distinction, as the first city in the United States to have a municipal airport is worth while If the bonds are authorized the city is also planning on renting space for the use of manufacturing plants.

POSTOFFICE TO REFINE ALL OIL PROMOTERS

Serves Notice Day of Common Law Trust Freedom Is Ended

[By Associated Press]

WASHINGTON, April 7.—The postoffice department will move in the "most vigorous and persistent manner possible" against oil stock promoters who are declared by postal inspectors to have robbed the public of more than $100,000,000 in operations in the state of Texas in the last five years.

This warning was served on oil stock promoters in a statement yesterday by Postmaster General New.

Investigations of postal inspectors in the state already have resulted in 200 cases being placed before the grand jury, now sitting at Fort Worth, said a report from department agents there, made public by the postmaster general. "Wildcat promoters," Mr. New said, "have escaped prosecution by the state authorities by operating as common law trusts, over which the state statutes have no provision."

MISS MAJORS WINS TEST IN ORATORY

To Represent High in Oratorical Battle of So. California

WINS $50 PRIZE

Heads of English Department Delighted With Showing of Orators

Sophomores of Glendale High are a proud bunch over the victory of their representative, Margaret Majors, in the try-out oratorical contest Friday evening in the school auditorium to determine who should represent the school in the oratorical Constitutional Contest for Southern California.

The heads of the different sections of the department of English literature were deligted with the work of all the contestants which was highly creditable to the school, and the judges, W. D. Root, Mr. Herzog of Hollywood and Mrs. Jenkins of Lincoln High, said they had never faced so difficult a task as was theirs in determining who to place first, Miss Majors or her close competitor, their scores being but three apart.

Margaret Majors' theme was "George Washington and the Constitution." Her oration was fine both in subject matter and delivery, and she closely held her audience to the climax. There was but a shade of difference between the efforts of the two girls, Miss Hill's theme being "Daniel Webster, expounder of the Constitution."

Miss Majors receives the $50 prize which goes to the contestant from each school competing, and is also entered for the semi-final contest for Southern California, April 24, with the possibility of winning the final capital prize of $1500 in cash or a trip to Europe.

A representative and most appreciative audience was present and encouraged all the orators by their sincere applause. Judge Gavin Craig of the superior court, and a resident of the high school district, made a fine presiding officer and appreciated numbers were contributed by the high school orchestra.

An incident which was of great interest to the orators was the exhibition by Judge Herzog of the first printed copies of the original constitution and the declaration of independence which they were permitted to examine.

PRESBYTERIANS OF TROPICO HEAR THE CANDIDATES

A most interesting and successful meeting which filled the auditorium of the Tropico Presbyterian Church was held there Friday evening by the Men's Club of the church, with the president, Sam Brown, wielding the gavel.

Boy scouts of Troop No. 1, which originated in that section of Glendale, were present in a body wearing their scout uniforms.

Four of the seven candidates for the city council: Messrs. Booth, Gilhuly, Webb and Hall, addressed the gathering, the other candidates having to leave to fulfill other engagements.

After the gentlemen mentioned had spoken, a lecture illustrated by stereopticon slides of the harbor at San Pedro, was delivered by Mr. Ludlow, engineer of the harbor, who was introduced by H. E. Fry, chairman of the program committee. It was of interest and greatly enjoyed.

At its conclusion Councilman Sam Davis spoke at some length on city problems and in defense of the policy of the present council.

MOTHERS WILL AID GLENDALE WAR VETERANS

The Lester Meyer chapter War Mothers of America was hostess Wednesday to the Disabled War Veterans at the California Hut.

Mrs. F. R. Padelford, president of the local organization, and Mrs. B. Webb, served a delicious chicken dinner to these worthy boys.

Any Glendalian wishing to help with these lunches which are served by the War Mothers the first and third Wednesdays of each month, may do so by communicating with the president, Mrs. Florence R. Padelford, 1359 Highland avenue, Glendale.

IMPORTANT BUSINESS AT PYTHIAN SISTERS

Considerable important business was transacted at the regular meeting of La Halla Temple, Pythian Sisters, held Friday evening, over which Most Excellent Chief Mrs. Joliffe presided. Plans were made for the meetin of April 20, when the grand chief, Mrs. Myer, will make her official visit, and when other temples will be entertained, including the Van Nuys temple and Purity temple of Los Angeles. The local temple elected as delegate to the grand lodge convention, Mrs. Pauline Doose, selecting Mrs. Elizabeth Haynes for the alternate.

GLENDALE WOMEN HONORED AT THE DISTRICT MEET

Mrs. Mattison B. Jones Tells of Eloquence of Mrs. Toll and Mrs. Campbell

Mrs. Mattison B. Jones, who returned Friday from attendance of the District Federation of Women's Clubs at Paso Robles, reports that Mrs. Charles Toll of this city, who was elected president without opposition, made a wonderful speech of acceptance, and scarcely less eloquent was the speech with which Mrs. Daniel Campbell, president of the Tuesday Afternoon club, presented to Mrs. Toll a tribute from her organization and Glendale in the shape of a beautiful bouquet of flowers and the more lasting distilled essence of flowers, a bottle of fine perfume. It came as a pleasant surprise to Mrs. Toll from her home city.

Mrs. Jones thinks there is little doubt the invitation to hold the next district meeting in Glendale will be accepted. The only other invitation came from Inyo which it is believed is too far away and difficult of access for a successful meeting. The final decision was left to the board of directors and new president.

Oxy Debating Squad Are Twice Winners

The team of debaters from Occidental College now making the largest tour of the east ever undertaken by a college debating squad, is carrying the orange and black banner to victory. During the first two debates held with the University of Maine and the University of Denver the Occidental debaters found very little opposition to their battle for the highest score.

Their first debate, with the University of Maine, at Oron, Maine, where they cornered an easy victory with a score of three to nothing, strengthened their hopes and intentions to win as many as possible of the remaining forensic battles. At the University of Denver, the Occidental team again came out on the high side, without quite so much ease, however. The score of this meet was two to one in favor of the Oxy men.

From Denver the team left for Montreal, Canada. No debates are scheduled there, but both Chicago and Montreal will be visited on the way to their next engagement at Provo, Utah, with the Brigham Young University. This is rated as one of their stiffest verbal matches, but with such a splendid beginning the Occidental students eagerly awaiting returns here at home feel that success is assured.

GLENDALE W. C. T. U. HOLDS REGULAR MEETING

The regular meeting of the Glendale W. C. T. U. was held yesterday at the home of Mrs. Sarah Thomas, Mrs. Ruby J. Smart presiding. Delegates elected to attend the county convention April 18 to 20 at Huntington Park were: Mrs. C. W. Bacon, Mrs. Annie Sipple, Mrs. Sarah Thomas, Mrs. O. F. Palmer, Mrs. Helen Knappen Scripps, Mrs. Cora Pettit, Mrs. C. A. Brandstater, Mrs. I. A. Ford, Mrs. Guy Morton, Mrs. George Rowe, Mrs. Fannie Rumble and Mrs. M. A. Hadley. The five ex-officio delegates from Glendale will be Mrs. Marie Yeoman, Mrs. Ruby Smart, Mrs. Lily Richardson, Mrs. Edith Dockeray and Mrs. Hattie E. Gaylord.

Little Doris Jean Thomas, baby daughter of Mr. and Mrs. L. S. Thomas, and granddaughter of the hostess, was made a white ribbon recruit by having a white ribbon tied on her wrist during the meeting yesterday. Three cakes, which had been flavored with non-alcoholic extract, were served as refreshments.

SPLENDID PROGRAM TO BE OFFERED AT TUESDAY CLUB

The opportunity of hearing a splendid musical program for a very small admission fee will be afforded those who attend the concert to be given under the auspices of the parliamentary law section of the Tuesday Afternoon club at the club auditorium at 8 o'clock tonight. The program will include musical numbers by Hilda Brockway, songs by Helen Sayre and Ruth Olshausen, Harold Trefry; dramatic readings by Harold Brewster, musical numbers by Lura Jane Burris, Mildred Brockway; duets by Lura Jane Burris and Harold Trefry and Hilda and Mildred Brockway. The proceeds from this concert will be used for the glassware fund of the section, which has taken over this part of the club's furnishings.

RUMANIAN PREMIER'S RESIGNATION ACCEPTED

[By Associated Press]

BUCHAREST, April 7.—(Jewish Telegraph Service).—Premier Bratiano has tendered his resignation and the king has accepted it. Bratiano was the leader in the movement which culminated in the adoption of Rumania's new constitution.

STUDENT AVIATOR KILLED IN FALL

[By Associated Press]

DAYTON, Ohio, April 7.—Captain Richard Derby, student in the engineering school at McCook air field, here, was reported killed when his plane fell on Herman avenue near the field today.

BUILDERS EXCHANGE REALIZED

Perfected at Meeting Held Friday Night in Glendale

VOTE CONSTITUTION

H. C. Yale Elected As Head; Peter L. Ferry, Vice President

Organization of the Builders' Exchange of Glendale was perfected at a well attended meeting held last night.

A constitution classifying all master craftsmen in the various branches of the building industries was adopted, following which officers to serve the Exchange were elected.

The officers elected: President, H. C. Yale, General Construction company; vice-president, Peter L. Ferry, highway contractor; treasurer, J. C. May, May & Heliman, building contractors; secretary-manager, Attorney Henry Molz.

A board of directors to comprise representation of the various builders' branches represented in the membership will be elected upon completion of the membership campaign. It is the desire of the members thus far enrolled to give full and impartial representation to all.

The meeting went against charter amendment No. 1, it being the consensus of opinion that it was bad practice as a whole.

The Exchange is not organized for selfish purposes, it proposes to champion the rights of the public as well as those of its members, and by a united effort alone can this be accomplished.

The officers have been authorized to secure a suitable meeting place so that the Exchange can properly function, and it is hoped to have same in readiness in time for the next meeting to be held on Friday, April 13.

'SUCKER' LIST OF FT. WORTH FINDS ITS VOICE

Thousands Deluge Federal Investigators With Telegrams and Letters

[By Associated Press]

FORT WORTH, Tex., April 7.—A deluge of letters and telegrams from all parts of the country and Canada poured in upon United States Commissioner Parker and the federal grand jury today, following publication of Fort Worth dispatches of the roundup of oil promoters.

Some of the letters give "tips" on oil men not netted in the round up and enclosed oil literature in corroboration. Many ask if the grand jury "is going to get so and so."

The communications come from San Francisco, Philadelphia, Vancouver, B. C., and numerous other points. Some of them enclose Associated Press dispatches. "I was separated by this bird from a small fortune," one man writes as he gives the name of an oil promoter.

"Don't overlook this party," writes a self-styled member of the "Sucker List," in giving the name of a promoter long departed from realms of oil and speculation.

The grand jury letters were turned over to J. H. Burroughs, foreman.

VALLEY CHAMBERS ELECT L. J. ROWLEY

L. J. Rowley, of Glendale, has been selected as a member of the parks, boulevards and streets committee of the Federated Chambers of Commerce of the San Fernando valley.

It is understood that this organization is directly behind the construction of a mammoth concrete viaduct at the intersection of Glendale boulevard and the proopsed highway from Santa Monica boulevard through Hyperion canyon.

MRS. FISHER TO SPEAK AT METHODIST CHURCH

Attendants at the First Methodist church tomorrow morning will be privileged to hear one of the greatest woman orators in all Methodism when Mrs. Lena Leonard Fisher delivers the thank offering address for the Women's Foreign Missionary society. A great service is anticipated.

GLENDALE THEATRE MAY STAGE DEBATE

William Howe, manager of the Glendale Theatre, has generously offered the use of that auditorium for the annual inter-class oratorical contest of Glendale High set for April 20, provided it can be held at 10 o'clock.

Sanitarium Enters Final Building Stage

Brick work was completed yesterday on one of the new buildings for the Glendale Sanitarium and Hospital, being erected just east of Sycamore Canyon and Verdugo roads. This building is 130x76 feet and will contain the parlor, dining room, kitchen, employees' cafeteria and store room for kitchen supplies. This will be joined by several passageways to the main building, work on which is also well under way.

MUSIC CLUB PROGRAM IS APPRECIATED

First Concert in Tuesday Folks' Auditorium Is Triumph

MISS PEYCKE STAR

Manuscript Songs Are Given With Much Success.

A large audience which nearly filled the beautiful auditorium of the Tuesday Afternoon club assembled for the regular monthly concert of the Glendale Music club Friday evening.

Mrs. Mattison B. Jones gave a few words of greeting and satisfaction over the place of meeting and introduced Wilma Kulp, corresponding secretary of the Juvenile Auxiliary of the Glendale Music club who announced the juvenile meeting this afternoon at the home of Mrs. H. V. Heary on Pioneer drive, and thanked members of the senior organization for the help and patronage given the auxiliary.

The artist of the evening, Miss Frieda Peycke, was then introduced and welcomed, enthusiasm for her charming entertainment increasing as her program advanced. It was interrupted that she might receive a beautiful bouquet of spring flowers. It included the new numbers, still in manuscript, "The Big Road" by Mrs. W. E. Mitchell, and "The Lost Arrow," a legend of the Yosemite by Bertha Smith.

Miss Peycke kindly analyzed her musical settings and gave the motifs used for interpreting the themes which lent additional interest to the performance, and was generous with her encores in response to spontaneous applause. These extras included "Some Days are Fairy Days," "How the Rabbit Came to Have Long Ears," "Timothy" and "Chums."

The next concert of the club will be held in the high school auditorium the first Friday evening in May, and will be furnished by the organizations in Glendale that belong to the Music Federation, viz: the Glendale Music club, its Junior and Juvenile auxiliaries, the Madrigal club, Music section of the Tuesday Afternoon club, the high school orchestra and the two Glee clubs of the high school.

ANGELS' PITCHER TO BUY HOME IN GLENDALE

George Lyons and Elmer Ponder, pitchers, and Tom Daly, catcher of the Angels' team, Los Angeles, were guests on Friday of Mr. and Mrs. R. N. Greenlaw, who took them for a ride around the town. Mr. Lyons was so impressed with Glendale that he purchased a lot on Geneva between Lexington and Doran, which is the gateway to the Bellehurst and Rossmoyne tracts. They also called upon Dr. W. E. Sunderman, cousin of Mrs. Greenlaw. Dr. Sunderman, Mrs. Greenlaw and George Lyons were born in the same town, Bible Grove, Illinois, and are old friends.

REV. CLIFFORD A. COLE ADDRESSES THE LEGION

Rev. C. A. Cole of the Central Christian church was the speaker at the regular meeting of Glendale post, No. 127, American Legion, which was held last night with Commander Day in charge. The subject of his talk was "To Be Great Is to Serve." He said in part: "The real recompense is a consciousness that you have served. He is the greatest who has served most." Detailed plans are being carried out to make the Community Service players show, which is to be given April 19 and 20 at the Tuesday Afternoon clubhouse for the benefit of the local Legion, a big success.

THE WEATHER

[By Associated Press]

SAN FRANCISCO: Tonight and Sunday, fair; gentle winds, mostly westerly.

SACRAMENTO VALLEY: Generally fair tonight and Sunday; gentle southerly winds.

SANTA CLARA AND SAN JOAQUIN VALLEYS: Fair tonight and Sunday; gentle westerly winds.

SOUTHERN CALIFORNIA: Fair tonight and Sunday; gentle westerly winds.

NEW HOTEL IS PLANNED FOR BRAND

Dr. E. H. Parker and Associates Start Movement

BANK HOME PROJECT

Citizens State Reported to Build at Brand and Wilson

Such big things are simmering in the line of business and commercial development in this city that little doubt remains of Glendale's ability to maintain its present pace in building permits.

One of the huge things projected is an up-to-date hotel worthy of Glendale on the northwest corner of Brand and California, on what is known as the Thornton property. Dr. E. H. Parker of North Maryland is said to be the heaviest stockholder with an investment of three lots for the site of the building which he owns and about $150,000 in cash.

Associated with Dr. Parker in the project are a number of business men of Glendale who are now securing subscriptions towards the balance of the cash irvestment needed—$150,000.

Another project is the erection of a banking house on the southeast corner of Brand and Wilson to provide a home for the Citizens State Bank. E. U. Emery and C. C. Cooper are credited with large interests in this enterprise.

Mr. Cooper is also said to have purchased within the week the Peters' Block on Brand boulevard, adjoining the T. D. & L. Theatre, for a consideration around $80,000.

SMITH'S CHEVROLET TEAM DEFEATS K. OF C. OUTFIT

In last night's match in the Glendale City Bowling League the K. of C. team won the two first games, the Smith's Chevrolets taking the last game.

SMITH'S CHEVROLETS

Merikan	168	167	178

Tonight the Glendale team will bowl the Pasadena Bowling Academy team.

Guardsmen to Play at Brookside Sunday

There will be a ball game between the local Guards and the Pasadena K. C. at Brookside Park, Diamond No. 2, Pasadena.

The game will be called at 2:30. Not much is known about the Pasadena team as most all its games have been played at the home grounds.

"Doc" White or Charles Wendt will do the hurling for the local team.

Intermediate C. E. Holds Regular Meeting

The regular monthly business meeting of the Intermediate Christian Endeavor was held at Harold Majors' home yesterday. Several new plans were brought up and voted on.

After the meeting games and light refreshments were enjoyed by all. Margaret Majors, the girl who won the oratorical contest, gave her oration and it was received with hearty applause.

Those present were: Host and hostess, Mr. and Mrs. Majors, Superintendent Howard L. Brown; Assistant Superintendent Mildred Elliott and the Misses Margaret Jones, Mildred Sooy, Ruth Jeckle, Gertrude Heideman, Gladys Gilman, Helen Gaskin, Grace Yarbrough, Ruth Edmonds, Esther Edmonds, Margaret Majors and Mildred Thompson.

Following young men were also present: Baxter Andrews, John Thompson, Daryle Parker, Harold Majors, Lyle McAllister, John Heideman, Harold Parker, James Littell, Wilbur Lemon, Spencer Jewel, John Simpson, Graham Tinning, Thomas McClellan, Fred Fallis and Paul Edmonds.

THIEF VISITS AIRPORT

An expensive welding apparatus was stolen from the airplane hangar belonging to W. B. Kinner in the Glendale municipal airplane field Thursday night. The matter was reported to the Glendale police yesterday, but up to this time nothing has been learned of the missing apparatus.

GLENDALE WINS APPLAUSE AT SANTA ANA

Delegates' Reports of Music Progress Here Are Enthusiastically Received

Glendale received much favorable publicity at the convention of the Federation of Music Clubs of this district, which was held at Santa Ana, this week. The delegates from the music section of the Tuesday Afternoon club and of the Glendale Music club, who attended on Thursday, included Mrs. Julius J. Luedke, Mrs. S. B. Morse and Mrs. Allan D. Dunlop. Mrs. Dora Gibson also attended on Friday.

The reports of the work in Glendale were most enthusiastically received. They covered some of the big things that are being done here musically, and included mention of the operetta, "In An Old-fashioned Garden," which was presented by the music section as a charter day program at the T. A. C., and also was repeated for the charter night program at the Glendale Music club; the purchasing of the Knabe grand piano by the music section for the new T. A. C. home; the bringing of musical artists to city and presenting them at the club concerts.

The big point brought out in all the reports was the close co-operation between the music club and the music section of the Tuesday Afternoon club, and the other musical federated organizations of Glendale.

Mrs. Mattison B. Jones, president of the Glendale Music club, was the first curator of the music section of the T. A. C. Mrs. Warren Roberts, who is at present the curator of the music section, is treasurer of the Glendale Music club. Mrs. Dora Gibson and Mrs. Charles A. Parker, teachers at the high school, are workers in both the music section and music club.

On Friday Mrs. Dora Gibson was one of the speakers at the Public School Music Teachers' luncheon at Santa Ana. Her topic was "What the Musical Organizations Have Done for the Encouragement and Betterment of Public School Music in Glendale." She told how once each year a program is furnished by the members of the music classes of the high school for the music section of the Tuesday Afternoon club. This is always looked forward to with much interest and pleasure. Original compositions in many instances are given by the members of the harmony classes.

PAUL HUTCHINSON WINS DEBATE AT U.

The annual oratorical contest at the University of California, Southern Branch, was held yesterday, with about twenty contestants and resulted in Paul Hutchinson of Glendale being chosen as winner. He will represent the University in the annual oratorical contest which will be participated in by all of the colleges in Southern California, seven in number. The next contest for the championship of Southern California will be held May 1 at Redlands university. The subject of Paul Hutchinson's talk was similar to the one upon which he won the championship of Southern California in the high school contest, treating with the facts of war and that the United States should be a leading factor in abolishing war and promoting peace.

SIR CONAN DOYLE SHOWS SPIRIT PICTURES

New York Audience Grows Hysterical As Faces Are Apparently Revealed

[By Associated Press]

NEW YORK, April 7.—A weird photograph, described by Sir Arthur Conan-Doyle as that of a spirit war dead—myriads of grim faces hovering above the cenotaph of the unknown soldier in London during the two minutes of silence for prayer—drew gasps of astonishment from a large audience in Carnegie Hall last night when he gave a lecture on spiritualism. Some women sobbed.

"Do you see the dead creeping through?" Sir Arthur asked, pointing to the faces. "You see them everywhere."

One of the pictures showed countless heads of sad-visaged soldiers floating above the memorial. The spectators were blotted out. Some faces were blurred but others were distinct. The general impression of the audience was that the faces were those of men who had been killed in battle.

"I don't wonder that you are moved," Sir Arthur said, when the sobbing and buzz of hysterical whispered comment interrupted him. "I consider it the greatest spirit picture in the world."

He declared the plates had been developed immediately and that there was no chance for fraud.

OMAR SHRINE INSTALLS ITS NEW OFFICERS

Beautiful and Impressive Services Are Held at Masonic Temple

WORLEY PRESIDES

Many Visiting Members of the Organization Attend Function

Beautiful and impressive were the installation ceremonies of Omar Shrine, No. 9, White Shrine of Jerusalem, at Masonic Temple last night when the new corps of officers took the obligation of their various offices. The lodge room was beautifully decorated with an abundance of maidenhair fern and baskets of spring flowers. W. W. Worley acted as master of ceremonies, and gave a talk of welcome expressing the spirit of kindliness and friendliness with which the sojourners wished to greet their visitors.

The installing officers were then escorted into the room as follows: Orma V. Naudain, supreme worthy high priestess; William G. Wisner, supreme watchman of shepherds; Emma W. Wisner, supreme worthy chaplain; Ella E. Van Court, supreme worthy scribe; Emma Bell Kuttler, supreme worthy herald; Ethel Robbins, musician; Eda M. Orme, escorting herald; Blanch V. Holcome, worthy guardian; Alice R. Brown, flag bearer.

Preceded by the king's guards—Frank W. Chambers, Edward E. Emerick, E. O. Carlisle, Ralph W. Brown; and queen's ladies—Pearl F. Chambers, Luella Emerick, Edith Carlisle, Gertrude McMillan and Priscilla Burke, the officers-elect were then escorted into the room: Evelyn G. Pierce, worthy high priestess; D. Ripley Jackson, watchman of shepherds; Fern Archer Roberts, noble prophetess; Maude A. Smith, worthy scribe; Edith Lee Richardson, worthy treasurer; Nana King Custer, worthy chaplain; Olga Constance Bourne, worthy shepherdess; Sara Francis Leland, worthy guide; Mae Warrick, worthy herald; Alvah H. Leland, first wise man; Warren Q. Roberts, second wise man; Porter M. Custer, third wise man; Benjamin F. Bourne, king; Libbie R. Cutting, queen; Maude A. Evans, first hand maiden; Jennie A. Phillips, second hand maiden; Grace A. Jackson, third hand maiden; Vera Mitchel Pickette, organist; Harriet B. Ellis, worthy guardian; Kate C. Cronkhite, worthy guard.

Among the visiting officers who were present and escorted to the east were Mae Johnson, worthy high priestess, and George Tucker, watchman of shepherds of Manetho Shrine No. 1 of Los Angeles, and Mrs. Allewd, past worthy high priestess and mother of Nazareth Shrine No. 37 of Newton, Iowa.

A very delightful musical program interspersed the work of initiation and included: Vocal solo, "For You Alone" (Goehl), by Miss Rohr; piano solo, "Aeolus" (The Wind) by Eva Kurtz Ghrist, A. B., A. O. G.; vocal solo, "The Enchanted Glade" (Barker), by Mrs. Wenzel; vocal duet, "Whispering Hope," by Mrs. Wenzel and Miss Rohr, accompanied at the piano by Mrs. Ghrist; piano solo, "Butterfly" (Grieg), by Eva Kurtz Ghrist, and a number of encore selections.

At the request of Mrs. Naudain, supreme worthy high priestess, Mr. Leland, who is the junior past watchman of the shepherds of Omar Shrine, installed his wife as worthy guide. All the other officers were installed by the regular corps of supreme officers.

Mrs. Pierce and D. Ripley Jackson both gave short talks on "Loyalty" in connection with the work of the officers and members for the ensuing year. The presentation of gifts and officers' jewels was done with very appropriate speeches. Mr. Leland was presented with the past watchman's jewel and Mrs. Naudain with the past priestess' jewel in the form of a lavalliere. They also exchanged personal gifts in the form of receipt cases. A beautiful basket of flowers was presented to Mrs. Naudain from the officers of Omar Shrine. Among the other gifts were a photograph from Mrs. Leland, past queen, to Mrs. Naudain; gift from scribe and herald to Mr. Leland; gifts to queen's attendants from Mrs. Leland; gift to Mrs. Leland from trailers; gift and bouquet to Mrs. Vesper, past chaplain, and other floral gifts to Mrs. Naudain and Mrs. Pierce.

On March 29, 1922, Omar Shrine, No. 9, was instituted and in July the charter was received and the first officers were installed. The order has grown under the guidance of the officers and the co-operation of the members. Many comh 1t,tG;,rSVmGdMeO,F2(?gplan-orpliments were extended to the retiring officers for their splendid work. The remainder of the evening was given over to short talks by visiting officers.

Mr. and Mrs. L. C. Wolf of 535 Spencer Place, entertained a group of frends informally Thursday night.

NEWS OF EAGLE ROCK CITY

BIG CHAMBER OF COMMERCE DRIVE PLANNED

An extensive campaign for membership in an enlarged chamber of commerce will be instituted in the near future, if plans discussed at the last chamber of commerce meeting develop satisfactorily. It is hoped that at least five hundred memberships can be secured through a canvas of business houses. A number of prominent firms have already signified their intention of taking at least two or three of the memberships, and several have announced that they would buy four. Since annexation has become a certainty it is more essential than ever to have a strong chamber of commerce.

CHARMING WEDDING TAKES PLACE AT YOUNG HOME

The home of Harold E. Young, 120 North Highland avenue, was the scene of a charming wedding Thursday night, when the young sister of Mrs. Young, Alice Mae Burgess, became the bride of Horace Jarvis of England at 8 o'clock.

Both bride and groom have recently come over from England, Mrs. Jarvis arriving less than six weeks ago. She brought with her some rare and lovely English china which will find use in the new home.

The ceremony, which was read by Rev. E. J. Bradner, of the Methodist church, was witnessed by relatives and a few close friends only. The bride wore the conventional bride gown of white silk without the veil. In place of the veil sprays of orange blossoms were twined in her hair. Little Jean Lee from Los Angeles was flower girl.

Mr. and Mrs. Jarvis will reside in Los Angeles when they return from a short honeymoon at Balboa.

Church Carnival Nets Forty Dollars

The carnival arranged by the young ladies' Sunday school class of the Methodist Church in the Methodist annex Thursday night, proved to be a bigger success than expected, despite the competition of the chamber of commerce meeting and the appearance of the Community Players. The 25 young ladies in charge had hoped to make about $25 towards defraying the expense of their church bond of $50, but upon counting the receipts of the evening it was discovered that $40 had been taken in.

All those who attended felt that they had been well entertained. The program was amusing and the refreshments excellent.

W. L. MILLER IS CONFINED TO BED

W. L. Miller, editor of the Sentinel, has been confined to his bed for almost a week, threatened with pneumonia. Yesterday his condition was slightly improved, but his temperature still registered ninety-nine. Mr. Miller was taken ill while at work in his office Tuesday morning, and since that time has been unable to carry on any of his work.

BUSINESS LICENSE MUST BE PAID

All business firms who have not paid the business license, due and payable since the first of the year, 1923, will be called upon for reasons, and subsequently fined, according to the local law officials. A huge drive will be made on all firms who have violated this ordinance concerning the payment of the business tax.

MAY POLE DANCE REHEARSAL ON MONDAY

The first rehearsal for the May-pole dance to take place in the center of the ball room at the big American Legion auxiliary May dance, will take place in the Eagle Rock public library on Monday afternoon, April 8, at 4 o'clock.

Full Size Lots
$975 up
$100 Cash
$20 and $25 per Month
Exclusive Section
Highly Restricted
A Homesite Worth Having
An Ideal Location With Lots of Real Beauty—Covered With Trees
—Its wonderful scenic advantages, combined with a magnificent view of the entire valley in the rapidly developing Northwest Section makes this property highly desirable. The restrictions are $3000 and $3500, and no temporary homes are permitted.
—All through the sale of our subdivision FAIRVIEW we have had hundreds of calls for lots with trees on them, and also for lots on which temporary homes were not permitted. At last we are able to supply this demand, and at prices so low that there will undoubtedly be, in a very short time, remarkable increases in values in SUNSET GROVE.
—The terms, $100 cash, and $20 and $25 per month, affords an opportunity to purchase a lot in a beautiful tract at the low opening prices, with a very small cash investment.
INVESTIGATE INVESTIGATE
—Improvements are being carried on rapidly. Water, gas and electricity to be installed at our expense. You will note the tremendous increase of values in our FAIRVIEW subdivision, and there is little question but what the ratio of increase will be greater in SUNSET GROVE, where its natural beauty has a wonderful appeal.
—Another Advantage: It is located above Kenneth Road, below Tenth St., the main paved boulevard between Glendale and Burbank.
REMEMBER—You must act now. Over two-thirds of these lots have been sold.
—Drive out Kenneth Road, Grandview Avenue and Tenth Street direct to Tract Office on South side of Tenth Street, beyond Linden Ave. Tract office open all day Sunday. On Saturday afternoon call at our office on Broadway.

SPANISH CLASS AT HI STARTS SECOND LAP

Monday Night Will See Gathering of All Those Interested

The Spanish class, in which free instruction is given at the high school, is starting on its second lap next Monday night. There are two classes; one commencing at 7 and the other at 8, each class lasting an hour. The first class is an elementary one and the second an intermediary or advanced. This affords all those interested in the study of Spanish an opportunity to take advantage of the free instruction, whether they are already versed in the language and desire to brush up, or are beginners anxious to learn.

The method employed by Professor Breckway is an easy, interesting one, in which the enthusiasm of the pupil is always maintained. In the case of beginners, the conversation or reading in Spanish commences immediately and the heavy, cumbersome method of studying verbs is eliminated, this end of it, being interspersed throughout the work in an easy light manner.

The class offers a splendid opportunity for all ambitious men and women to acquire a knowledge of a language the importance of which cannot be too greatly emphasized especially in this section of the country. All are invited to attend Monday night and observe for themselves what an interesting opportunity is presented to them. The sessions are Monday and Wednesday nights from 7 to 8 and from 8 to 9.

Mrs. Adolph Engelhart of 119 North Kenwood street, who had been ill with a severe cold for the past two weeks is improved. Her house-guests, Mr. and Mrs. R. L. Sare of Denver, Colo., left recently for Oakland.

SPLENDID SHOW OPENS TONIGHT AT GLENDALE

"Jazzmania" to Begin Three-Day Run On Sunday

The Jack Sutherland Four will be the leading number of an all-feature five-act vaudeville program at the Glendale Theatre on Saturday, April 7. This presentation is of the elaborate order and is called "Tunes and Tones." There are three very clever girls and one man in this act. All of them are exceptional artists and it is known as one of the big musical numbers of the coast. Mack and Lee, a versatile pair, are also members of this Glendale program. They are not only amusing but give a wonderful demonstration upon the piano. Their songs are varied and pleasing and include not only the latest song hits but include several original numbers. Jordon and Morris will appear in their specialty "Thrills and Spills." These artists are top-notchers and in their particular line they are not only entertaining but give a very diversified offering. Cairns and DeVoil will bring their novelty, "Two Extremes." These dispensers of fun have won a large personal following all along the circuit because of their material and the manner in which they present it.

Probably nothing in the nature of a musical attraction ever appearing in Glendale will create the general interest that will Waring's Pennsylvanians, the Gold Jazz Band De Luxe, composed of eleven college men, who open at the Glendale Theatre Sunday at the matinee for a five days' engagement.

Sunday's Program

A splendid cast of players is seen in support of Mae Murray, the star of "Jazzmania," the new Metro picture presented by Robert Z. Leonard at the Glendale Theatre, Sunday, Monday and Tuesday. In it are Rod La Focque, Robert Frazer, Lionel Belmore, Edward Burns and others.

Robert Frazer, who had the leading male role with Miss Murray in "Fascination," one of her most successful photoplays, is seen in an important role in this production.

Rod La Rocque, leading man of both stage and screen, appears opposite the star in "Jazzmania." Mr. La Rocque terminated a stage engagement in New York to go to Hollywood to appear in this picture.

Lionel Belmore, Jean Hersholt, Herbert Standing, Wilfred Lucas and Edward Burns have all been seen in prominent roles in recent photoplays.

"Jazzmania" was photographed by Oliver T. Marsh, who has served in a similar capacity for all of Miss Murray's recent productions, released by Metro. The film was made by Tiffany Productions, Inc., of which M. H. Hoffman is general manager. Cedric Gibbons executed the sets.

MISS VORWERK IS HONOREE AT BIG BRIDE SHOWER

Miss Bess Vorwerk, who is to become the bride of Burdette Rockhold, was the guest of honor at a miscellaneous surprise party, given Wednesday afternoon by Miss Clover Johnson and Miss Esther Jones at the home of Mrs. M. E. Fritz, 301 North Kenwood street. The house was decorated with pink carnations and ferns. During the afternoon the guests were requested to write good wishes to the bride-to-be in which the word "well" was used. The prize, a beautiful bud vase, was awarded to Mrs. Fritz, who presented it to the honoree. A tiny bucket was then given to Miss Vorwerk with a verse instructing her to find the magic well. After much hunting she found this in one corner of the dining room, where many useful and beautiful gifts were found. Later in the afternoon dainty refreshments were served. Upon each plate was a miniature "well."

The invited guests were Mesdames J. E. Rockhold, F. W. Vorwerk, Emelie McAllister, Clark Christy, Cecil Percy, Henry Hoedinghaus, H. O. Halverson, B. D. Chester, E. W. Hayward, Payson Hayward, Anna Pinney of Guatemala, M. E. Fritz, Herbert Cunningham of Los Angeles, Jack Eaton, Alvin Brown, Frederick Eldredge, Pauline Kemmer and O. T. Nye of Eagle Rock, Lottie Hiel of Silver City, N. M., Misses Louise Huston, Olive Belle Emery, Leona Brice, Eleanor Brice Dorothy Patterson, Jewel Cole, Emelie Vorwerk and the guest of honor, Miss Bess Vorwerk.

MRS. WARREN V. NEWTON HONORS MISS MARIE WALKER

Miss Marie Walker of San Francisco, who is the house guest of Mrs. Warren V. Newton of Glendale, was the honored guest at a bridge-luncheon given at the Sunset Canyon Country club yesterday by Mrs. George T. Smith, Mrs. George Pratt and Mrs. Arthur Dibbern. The guests included Miss Walker, Mrs. Newton, Mrs. T. E. Scott of Los Angeles, Mrs. Paul Melchert of Altadena, Mrs. James Apffel, Mrs. W. H. Boothby, Mrs. W. W. Jones, Mrs. W. S. Rattray and Mrs. Christ. High schore at bridge was made by Mrs. W. W. Jones and guest prize was awarded to Miss Walker. Desorations were carried out in marigolds and cornflowers.

NEW HYPONE CARD CLUB MEETS FRIDAY

The new Hypone Card club met Friday night at the home of Grace Mailloux, 631 North Central, where about 20 guests were entertained with cards and dancing, after which refreshments were served, the Glendale guests being: Misses Vera Bowen, Gloria Keats, Doris Armstrong, Lucile Howell, Mary Mezalia and Helen Mailloux.

TUESDAY CLUB DIRECTORS TO MEET ON MONDAY MORNING

There will be a meeting of the board of directors of the Tuesday Afternoon club Monday morning at 10 o'clock. Applications for membership will be considered at that time.

LEGION NEWS

For God and Country, we associate ourselves together for the following purposes: To uphold and defend the Constitution of the United States of America; to maintain law and order; to foster and perpetuate a one hundred per cent Americanism; to preserve the memories and incidents of our association in the Great War; to inculcate a sense of individual obligation to the community, state and nation; to combat the autocracy of both the classes and the masses; to make right the master of might; to promote peace and good will on earth; to safeguard and transmit to posterity the principles of Justice, freedom and democracy; to consecrete and sanctify our comradeship by our devotion to mutual helpfulness.—Preamble to the Constitution of the American Legion.

LEGION POSTS IN NEIGHBORING CITIES

The people know that whatever a community puts into the Legion it is sure to get back in service.

* * *

Maywood Post baseball team the other day was practicing on some vacant lots. Mr. Graham, president of the Laguna Land & Water company, happened along and forthwith ordered five acres of the great de Baker Rancho set aside for a Legion Athletic Field and instructed the engineering department of the company to put it in first-class condition.

* * *

Capt. Thos. D. Watson has generously done much the same thing for the Glendale Legion. The site on San Fernando road between Wilson avenue and Broadway has been turned over to the Legion and there being no engineering outfit at hand the boys are fixing it up in fine shape and glad to have the chance. Watch the announcements for Legion League games—they will be worth while.

* * *

Pasadena citizens have pledged $150,000 and the Legion has raised $50,000 more for the construction of a fine Legion Club in the Crown City. Pasadena appreciates the Legion.

* * *

Compton Post secured a lot, put on its overalls and with the backing of the entire town erected a combination club house and pavilion which seats 2000 people. All kinds of meetings, civic, religious and legion and elegantly well patronized entertainments are of frequent occurrence. The clubhouse boasts the largest and best dance floor in Southern California. The club dances are becoming famous throughout the country.

* * *

"Be it ever so humble there's no place like home!" Glendale veterans believe it, and are working hard for a home and where there's a will there's a way.

* * *

The Los Angeles County Board of Supervisors has purchased a large lot at 18th and Figueroa in Los Angeles and provided over $300,000 for the construction of a magnificent patriotic hall for the use of all veteran societies able to use it. The allied architects responsible for all public edifices in Los Angeles are preparing plans for the building which will cover a ground space of 100 by 150 feet. The supervisors have indicated that they would also assist Glendale veterans in financing a similar undertaking, on a much smaller scale of course.

* * *

Owensmouth Legionnaires are actively planning for their new club house. They say everything is coming along in fine shape. Everybody is backing the project.

* * *

Nothing succeeds like success. A successful Legion will help materially in making Glendale.

* * *

El Segundo's elegant club house was dedicated by the American Legion Washington's birthday. Delegations from the Elks, Chamber, all the business men's organizations and the city trustees joined in putting over the project and celebrating the grand opening. Speakers from these participants all emphasized the ties of friendship for the Legion and the vital interest the community had in all undertakings of the post.

* * *

Shall Glendale, the fastest growing city in the United States, have a patriotic home for veterans? Glendale Post No. 127 American Legion says Yes!

KID PARTY IS HELD BY THE B. Y. P. U.

A "kid" party was enjoyed by the members of the B. Y. P. U. society of the First Baptist church at the home of Miss Marian Rich, 1215 South Glendale avenue, Friday night. All of those attending wore "kid" costumes and "kid" games were played. Toward the latter part of the evening "kid" refreshments were served.

The affair was given in honor of Group 3 in the membership and attendance contest, by the losing groups. About 40 young folks were present.

Although open for only a week, the Glendale Employment Agency, under the management of A. Carroll, room 12, Rudy Bldg., 108 N. Brand, has already solved the employment problem of a number of Glendale business men by bringing them in touch with employes fitted for the work required. This agency does all the preliminary work of testing out those seeking employment, relieving the employer of the ordeal of examining a long line of applicants seeking the position.

Mr. Carroll points out one way in which the employer can facilitate the matter of securing the right kind of employee for his needs is to turn the entire matter over to his agency. For instance, when a business man comes to his agency for an employe he complicates the case by placing a card in the window, "Help wanted."

When in need of an employe place your needs with the Glendale Employment agency and you will see how simple it works.—Adv.

"SALOME," BUSTER KEATON SUNDAY AT T. D. & L.

With the fullest endorsement and approval of the National Board of Review, and with the praises of critical experts of motion pictures promoting its appeal, Mme. Nazimova in her most ambitious screen production, "Salome," an Allied Producers and Distributors Corporation release, will be seen at the T. D. & L. theatre for an engagement of two days beginning Sunday.

Not only as a spectacle of rarest beauty and as a story of thrilling drama, does "Salome" make its appearance, but also to all classes of play and picture patrons and to the lovers of books. It comes as a sort of glorified "visual symphony" with a score of symphonic proportions written expressly for it by one of the foremost and most promising of composers in America.

Edison will have to step to one side as the world's premier inventor. His place will hereafter be taken by Buster Keaton, frozen-faced comedian of the screen, who during the filming of "The Blacksmith," the First National attraction to be shown at the T. D. and L. theatre, demonstrates that he is an inventor, second to none.

When it comes to inventing ways of getting into trouble, wrecking the happy mein of those in the cast and running high-priced automobiles, Buster stands alone, as "The Blacksmith" will testify.

Buster does his very best to make good as the blacksmith's assistant, but he is as much at home as a crocodile at a social tea. In saving the ingenue, he proopses, is accepted, and the picture ends with Buster and his bride domiciled in a beautiful home. The comedy is considered among the best yet made by the agile funmaker.

HUMAN NATURE TO BE EXPLAINED BY EXPERT

Floyd F. Barnes, formerly of Chicago, has been touring Southern California on a lecture tour, and is in Glendale for a visit. He will lecture at the Chamber of Commerce auditorium, beginning Monday. Mr. Barnes says that there is great interest shown in all cities where he has lectured on psychology and allied subjects. Never in the history of the country was there greater yearning for knowledge of self and an understanding of others and an insight into the workings of the subconscious mind.

Mr. Barnes is a human nature expert and his character readings from the platform are unique and very interesting. Babson states that "95 per cent of all people are failures because they are doing work they are not fitted for." Failure is a sad word in any language, but the power of it can be minimized when one knows his inherent aptitudes. These lectures to start Monday promise to be not only entertaining but very instructive.

VOICE OF THE PEOPLE

Editor Glendale Daily Press,
Glendale, Calif.

I am glad to note from your issue of 5th inst., that your columns are open to everybody for a discussion of topics of general interest, and I am sure such a broadminded policy will meet with the hearty approval of your readers.

In accordance with your invitation, permit me to offer a few remarks about proposition No. 8, which, in many respects, is the most important and far reaching one to be decided at the municipal election next Tuesday.

Upon the authority of engineers of the highest type, I challenge the statements of city officials that Glendale needs the thirtytwo acres for an additional water supply. The city already owns fourteen or more acres adjoining the thirty-three acres. Every engineer knows, or should know, that water, underground, seeks its level the same as on the surface, and that it will flow through the pumps on the city's fourteen acres from great distances on all sides regardless of surface ownership.

New conditions are almost sure to change the sources of our water supply before many years, and cause an abandonment of the present pumping plant. Until then the 14 acres the city now owns are ample for all needs.

If, however, some good citizens think that the 33 acres are needed for our future supply of water, they should insist that the surface of the ground be kept free from occupation or use except for water purposes, thereby protecting the water from surface pollution and preserving its purity to the greatest extent.

I will not insult the intelligence of the Glendale city managers by supposing that they do not know these things better than I do.

It is therefore evident that the real object in buying the 33 acres was to create an airport, or for other reasons not yet made public.

It may be that the 33 acres are worth more than the city has contracted to pay; perhaps the renting of the lands may prove profitable until Los Angeles, just across the river, opens a larger and better aviation field. But these matters are entirely foreign to the big questions of public policy and principles.

Is Glendale prepared to enter upon a communistic plan of operating municipal banks, theatres, hotels and stores and of engaging in general contracting, building, land subdivision, etc.?

These lines of business have been profitable, and may hereafter pay as well as air ports, but do the taxpayers of Glendale wish to undertake these things in competition with private capital and enterprise?

I think it is unwise and unnecessary to ask the people to vote on the issue of $49,000 worth of bonds. The legality of the purchase of the 33 acres is now being tested in the courts. If the action of the city officials is upheld, then the deal can be completed upon the original plan, without any endorsement of the people or the necessity of any bond issue. If the court decides against the city, the whole transaction becomes illegal and void. If Mr. Radcliff is required by the court to return to the city of Glendale the $16,500 received by him as first payment, is he not thereby relieved from all obligations to deliver the land at the contract price? What assurance has the city of getting the land for the proceeds of the bonds, if as is claimed, the property is now worth more than $66,000.

It seems to me that the voting of bonds at this time would increase the complications, and that the wisest policy is to await the decision of the pending suit in both the air port and Verdugo park matters. For the foregoing reasons I am opposed to the issue of the $49,000 bonds and shall vote "No" on proposition number 8.

JOHN S. KNOX,
435 South Central Avenue,
Glendale, April 7, 1923.

GERMANY HEARS U. S. WANTS HER RAILROADS

BERLIN, April 7.—Charges that America was trying to get control of the German railroads were made by Dr. Neuhause, a German engineer.

Benmar Hills
BURBANK
The City Beautiful

Destined to Be the Most Beautiful and Desirable Residential City That Money and Skill Can Build

Picture a well-planned, perfectly balanced, model American city of 100,000 people; a city with natural advantages of location, topography and water supply; a city of equable climate and perennial sunshine, where flowers bloom, motor cars purr along the boulevards and industries hum their songs of labor and production in December as well as in July; a city with a citizenship of high rating in cultural ideals, moral standards and business acumen; a city with magnificent public buildings, flower-scented parks, handsome homes and educational facilities of sustained superiority, as well as ample entertainment and delightful residential conditions.

Such is the destiny of Burbank—THE CITY BEAUTIFUL—and that in the very near future, for the necessary plans have been drawn up and approved and much of the work has already been completed.

Cognizant of these facts and conditions, hundreds of people are now selecting their residence sites in BENMAR HILLS—an estate of about 3000 acres, which takes in what is destined to be the real center of the city of Burbank. The city has already built a $250,000 high school in Benmar Hills; voted money for the development of a lake in a park in the foothill section of this tract, where the city has already received a deed to 130 acres for a foothill park; accepted deeds to a 20-acre site for a model civic center, together with substantial areas for public auto park, public market, athletic field and children's playground, and she has sanctioned the elaborate and beautiful street system planned for Benmar Hills.

Drive out to Benmar Hills and see for yourself what already has been accomplished—and choose the site for YOUR home here—within the boundaries of "The City Beautiful."

Follow San Fernando Boulevard until you reach Benmar Hills—just west of the present business section of Burbank. Our representatives will be at the tract office to give you full information.

GERMS FIND LIFE HARD IN BLOCK OF ICE

Refrigeration, according to doctors and domestic science experts, is the most important of all factors in the preservation of perishable foods, and as a protection against germs. This is shown by the fact that all food deteriorates even in cool weather, losing thereby much of its value, unless subjected to an even, constant circulation of cold, purifying air currents.

A block of ice—the finished product of an ice manufacturing plant—is one of the purest commodities at the disposal of the modern housewife. Only the purest and most carefully tested water is allowed to enter into the manufacture of ice. This makes the frozen product actually more sanitary than water which is piped to the home for drinking purposes.

Many years ago, the so-called air-shaft was popular. Today, with the advancement of medical science, the establishment of health centers and lecture courses on public health—a refrigerator well-filled with ice is regarded as the prime factor in the destruction of germ life.

One medical authority—Dr. W. A. Evans, Chicago health expert, states that ice is an absolute necessity in every home where there is a bottle-fed baby, if liquid milk is to be used. This is easily understood when it is known that at a temperature of over 50 degrees, bacteria will multiply very rapidly and milk will sour in a comparatively short time.

DUBLIN, April 7.—Monsignor Luzio, emissary of the pope, said if the Irish wished intervention by the Vatican he would support such a movement.

CANDIDATES' FORUM

This department will be at the service of all candidates and their supporters for the city council for the expression of their views and the publication of their platforms, without charge, from now until the close of the campaign. The only condition attached to publication of matter in this column is that it shall be courteous, controlled by desire to benefit Glendale, and differences of opinion must be stated temperately, if argumentative. The standing of the candidates in the community, the personal sacrifices involved in serving the city would of themselves eliminate personalities, without this statement. Manuscripts must be typewritten and on one side of the paper. Brevity is the soul of argument.

Editor Glendale Daily Press:

As a candidate for the Glendale city council at the coming election next Tuesday, I want to appeal to the voters of Glendale, through the columns of your valuable paper, for their support at the polls. I have been a resident of Los Angeles county for the past 12 years and have lived in Glendale at 342 El Bonito avenue for nearly six years. During the past two years I have been active in civic afafirs, serving on several committees of the chamber of commerce as well as the sewer committee of the city, and doing everything in my power to promote the interests of the city of Glendale. Have been engaged in the real estate and insurance business with offices now at 1801 South Brand boulevard for the past two years before which time I was connected with the Santa Fe railroad in Los Angeles in charge of transportation and for this reason have devoted considerable time to the transportation problem here, realizing that it was one of the most important features confronting the residents of Glendale today and I am pleased to say that I now feel we will have within a short time such transportation as will take care of our needs.

I am a member of the Elks, Masons, and chamber of commerce.

If elected on April 10 I will do all in my power to further the interests of Glendale as a city to be proud of and will serve the people as a whole to the best of my ability.

In conclusion I would like to ask that the voters of the city make it their personal duty to get out to the polls on election day and elect two men to the city council in whom they can place their confidence.

SIDNEY S. GILHULY.

Glendale, Calif., April 6, 1923.
Capt. Thomas D. Watson:

If elected as councilman of the city of Glendale, I pledge myself to work in the interests of its citizenry and at no time forget that I am employed by them, and that their legitimate wishes are commands.

I will work honestly and for the best interests of Glendale.

If honored with the voters' confidence, nothing can influence me to betray that confidence.

The foregoing is my platform and I mean every word of it.

My qualifications for the position are: extensive experience in different lines of business, have been a clerk, chief clerk, chief bookkeeper and a credit man for one of the largest concerns in the country; prepared for certified public accountant, and graduated in commercial law. I have always been fair and square and have an honorable record that I am proud of. I have been in California about three years, and am a property owner here. My two uncles came to California in 1849 and remained here, and my good father came here 40 years ago and died in California.

I am in Glendale to remain, and am a candidate for the express and only purpose of working in the interests of fellow tax payers. My small real estate and insurance business will not interefer with civic duties.

I advocate a closer relationship between our chamber of commerce and city officials, and the citizens in general.

I am a master mason, royal arch, council, Knight Templar and am a member of the Illinoir Masonic Veterans association.

I am not afraid to say what I think of conditions past or present and if the voters want that kind of a councilman, I would appreciate their suffrage.

Yours very truly,
ALLEN O. MARTIN.

To the Editor of the Daily Press:

Taxpayers, attention, protect your interests.

On election day, April 10, there are issues to be decided which should be seriously considered before voting. The choice of candidates for the city council will be decided by the voter through his sympathies or antipathies toward the different aspirants and the confidence they inspire. All candidates alike make extravagant promises before election; their action after election, however, is often a different matter. It is taken for granted all councilmen will be guided by intellect and conscience in all matters civic or political; conscience and intellect are of such a flexible quality and quantity in many that there is no guarantee to campaign promises.

It behooves the voter not only to choose carefully the men for the city council but to vote with deliberation on the other issues to be decided. The amendments to the city charter should be carefully weighed since they aim at more efficient and expeditious handling of city affairs. These amendments number six, and we think ought to be voted for, with the exception of No. 1, which is loosely drawn and leaves room for considerable abuse, nullifying in a large measure the restrictive clauses in the charter, placed there for the purpose of preventing large expenditures without first consulting the voters. No. 4 also should be defeated. It provides for reducing the time in which an ordinance may be passed after presentation from five to two days. Judging from past acts when the council passed the Verdugo park and airport deal over night, the latter the council now tacitly admits was unwise by coming before the people for a bond issue and the park cannot be explained on any honest basis, the time of passing ordinances should be increased rather than reduced.

On the bond issue it is well to be doubly careful or there may be unavailing regret. The purchase of this tract of thirty-three acres has been commended and endorsed by some of the largest and also some of the noisest clubs and organizations in the city; and even the press has boosted it. It may not be amiss, therefore, to offer here a few sober arguments against the whole purchase, fair isn't it to hear both sides to the question? Aside from the ethical aspect, or impropriety of buying it with the taxpayers' money without in any way consulting them, let us analyze the main practical reasons offered for its purchase.

1. Water bearing land. Here we find the city of Los Angeles has prior right to all water of the San Fernando valley. This right established by a decision of the supreme court. And exception is made in the deed. Therefore the city of Glendale did not and cannot purchase the right to the water underlying this land. On the other hand the city of Glendale owns a controlling interest in the Verdugo Canyon Water company, pure, cool, mountain spring water. Experts advise that Verdugo canyon water can be developed into over 400 miners inches continuous supply, greatly augmented over seven months of the rainy season. The $66,000 would have fuly developed this splendid gravity flow and thus eliminated a heavy overhead expense of pumping from the river bed; and because this flow is filtered thru millions of tons of sand and gravel it is unquestionably pure and healthy, and can be absolutely protected against pollution; whereas, the present supply is not and cannot be.

2. It is intended to use the surface of the land for industrial purposes. This destroys absolutely the first reason. Factories, etc., mean the employment of a large number of people. This requires sewage disposal. Hence unavoidable contamination of our water supply immediately under and adjoining. The city officials with great pride enumerate the large number of industries that they have now tentative leases with. First and foremost, the Pep Chamical company, manufacturers of commercial fertilizer. Think of it: Residents of the west and northwest! With prevailing winds from the west and southwest, how pleasant it will be wafting its sweet odors into your homes! A fertilizer plant admittedly with a "sulphur base." Sulphur in chemical solution is about the most disagreeable and repugnant stench that can be thought of. Fine advertising feature for the prospective buyer of a residence in the beautiful northwest. Imagine the real estate men going into rhapsodies, "yes, this is the most beautiful and exclusive section of Glendale, the most superb views, invigorating, cooling breezes from the sea, purified and ozonized by the fertilizer plant "with a sulphur base" close by.

From a strictly business standpoint it is questionable: It is stated the city will receive from this unthinkable nuisance a rental of $800 per year for the four acres this odorous company expects to occupy. What fine business acumen the city fathers must possess in driving such a sweet scented bargain. $800, mind you, not $8000! Then how delighted other industries will be to have a fertilizer plant as their neighbor and how eager workmen will be to work in such pleasant surroundings. A machine shop, shoe factory, or bakery would jump at the opportunity for a site in such an environment. As an alternative to an airport, would suggest the city establish an auto camp under decent, sanitary conditions which would be a credit and of inestimably more advertising value than an airport which city officials now know is not practicable on such a small space, and admit to their friends they are merely using it to gain an endorsement as officials.

Vote yes on No. 7—Legion.
Vote no on No. 8—Bonds.

BUILDING PERMITS

The following building permits were issued up to noon today:

Frank Huff, 740 East Broadway, addition to lunch stand	$ 300
O. A. Lane, 600-2-4-6-8 South Brand boulevard, seven stores,	
E. K. Daniels, contractor	18,000
Betz, Daniels & Borthick, 212 East Broadway, repairs, E. K. Daniels, contractor	300
H. H. Plasterer, 1122 East California, 2 rooms and garage	1,000
J. W. Sanker, 1051 North San Fernando road, addition	1,000
Miss Anna Gunarson, 528 West Broadway, 3 rooms, Ole G. Rudie, contractor	1,500
Haddock & Nibley, 621 North Glendale avenue, real estate office, W. W. Walcott, contractor	700

Four free lectures on Practical Psychology, Human Nature, and Bio-Chemistry will be delivered by the brilliant orator Floyd Foster Barnes in the Chamber of Commerce at 150 South Brand Blvd. starting Monday, April 9, 10, 11 and 13, in the evening at 8 o'clock. These lectures are instructive, inspiring and give everyone a new grip on life. Thousands have been turned away in other cities because Barnes wins and holds his audiences with his forceful, convincing arguments.—Adv.

CITY PRINTING

NOTICE OF ANNEXATION ELECTION, ORDINANCE NO. 767.

AN ORDINANCE OF THE CITY OF GLENDALE PROVIDING FOR THE HOLDING OF A SPECIAL ELECTION ON THE 27TH DAY OF APRIL, 1923 FOR VOTING ON THE ANNEXATION TO THE CITY OF GLENDALE OF CERTAIN TERRITORY DESIGNATED AS FLOWER STREET DISTRICT AND GIVING NOTICE OF SUCH ELECTION AS PROVIDED BY LAW.

WHEREAS, the Council of the City of Glendale on the 15th day of March, 1923, received a written petition asking that certain territory therein described contiguous to said City, which said territory is situated in the County of Los Angeles, State of California, and is more particularly described in said petition in words and figures as hereinafter in this ordinance described, and

WHEREAS, said Council of the City of Glendale hereby finds and determines that said petition is signed by not less than one-fourth in number of the qualified electors residing in the aforesaid territory, as shown by the registration of voters of said County; and

WHEREAS, the said new territory so proposed to be annexed to said City of Glendale does not form a part of any municipal corporation and appears that said new territory is inhabitated, and that the occupants thereof are bona fide residents of said territory; and

WHEREAS, said petition contained a request that the Council call a special election in said new territory, proposed by said petition to be annexed to the said City of Glendale, and submit to the electors residing in said new territory the question whether such new territory shall be annexed to, incorporated in, and made a part of said City of Glendale; THEREFORE, be it ordained by the Council of the City of Glendale:

SECTION 1. That notice is hereby given that in pursuance of the provisions of an Act of the Legislature of the State of California, entitled "An Act to provide for the alteration of the boundaries of and for the annexation of territory to municipal corporations, for the incorporation of such annexed territory in and as a part thereof, and for the districting, government and municipal control of such annexed territory," approved June 11, 1913, and designated and referred to as the "Annexation Act of 1913," and acts amendatory thereto, a special election will be held and a special election is hereby called to be held, in that certain territory hereinafter described, on the 27th day of April, 1923, for the purpose of submitting to the qualified electors residing in said territory the question whether such new territory shall be annexed to, incorporated in and made a part of said City of Glendale, and the proposition to be so submitted at said special election shall be the following:

That it is proposed to annex to, incorporate in, and make a part of said City of Glendale, said territory hereinafter described.

That said territory is hereby designated and shall be referred to and indicated upon the ballots to be used at said special election as "Flower Street District."

That upon the ballots to be used at said special election in addition to the other matter required by law, there shall be printed the words:

"Shall Flower Street District be annexed to the City of Glendale?—Yes" and

"Shall Flower Street District be anexed to the City of Glendale?—No" and there shall be a voting square to the right of and opposite each such proposition.

That the qualified electors residing in such territory so proposed to be annexed to the City of Glendale are hereby directed to vote upon the question of the annexation of said territory to said City by stamping a cross (X) in the voting square after the printed word "Yes" or by stamping a cross (X) in the voting square after the printed word "No." If an elector shall stamp a cross (X) in the voting square after the printed word "Yes" the vote of such elector shall be counted in favor of the annexation of said territory to the said City of Glendale; and if an elector shall stamp a cross (X) in the voting square after the printed word "No," the vote of such elector shall be counted against annexation.

That for the purpose of holding and conducting said special election one voting precinct, denominated as Flower Street District Election Precinct, is hereby established and designated, the boundaries of which precinct shall be coextensive with the boundaries of the territory proposed to be annexed, as hereinafter particularly set forth, and the polling place at which the polls will be open in said precinct and in the territory proposed to be annexed to the City of Glendale is established and designated as follows, and the following named election officers therefor are appointed, to-wit:

FLOWER STREET DISTRICT ELECTION PRECINCT

Comprising all the territory hereinafter set forth and proposed to be annexed to the City of Glendale and designated by this Ordinance as Flower Street District:

Polling Place—Residence: Edw. E. Radcliffe, So. Flower St.

Inspector—Gustave Thimgan.

Judges — (2) Thelma Radcliffe, Catherine M. Thimgan.

The polls of said election will be open at six o'clock A. M. of the day of said election, to-wit: the 27th day of April, 1923, and must be kept open until seven o'clock P. M. of the same day, when the polls shall be closed, except as provided in Section 1164 of the Political Code of the State of California.

The ballots to be used at such special election, the opening and closing of the polls and the holding and conducting of such special election shall be in conformity, as near as may be with the laws of the State of California, concerning general elections, except as otherwise provided herein and in that certain Act of the Legislature of the State of California, hereinbefore mentioned.

SECTION 2. That the territory proposed to be annexed to said City of Glendale, and in which said special election shall be called and will be held as aforesaid, is situated in the County of Los Angeles, State of California, and particularly described as follows: All that territory within the following described boundary lines, to-wit:

Beginning at the northeasterly corner of Lot 3, Block 95, Rancho Providencia and Scott Tract, as per map recorded in Book 43, Pages 47 to 50, inclusive, Miscellaneous Records of Los Angeles County, California; thence running southwesterly along the northwesterly line of said Lot 3 a distance of two hundred twenty-seven and forty-eight hundredths (227.48) feet; thence running southeasterly parallel to the northeasterly line of Flower Street to the northerly line of Lot 2, Block 96 of said Rancho Providencia and Scott Tract; thence southwesterly along the northwesterly line of said Lot 2 and its southwesterly extension, to the southwesterly line of Flower Street; thence southeasterly along the southwesterly line of Flower Street a distance of one hundred ninety-four and thirty-seven hundredths (194.37) feet; thence southwesterly, parallel to the southeasterly line of Sonora Avenue, a distance of one thousand ninety and ninety-eight hundredths (1090.98) feet; thence southeasterly parallel to the southwesterly line of Flower Street to the northwesterly line of Lot 4, Block 81 of said Rancho Providencia and Scott Tract; thence northeasterly along the northwesterly line of said Lot 4 to a point in said line five hundred thirty and sixty-nine hundredths (530.69) feet southwesterly from the southwesterly line of Flower Street; thence southeasterly parallel to the southwesterly line of Flower Street to the northwesterly line of Lot 5 of said Block 81; thence southwesterly along the northwesterly line of said Lot 5, a distance of three hundred thirty-five and eighty-nine hundredths (335.89) feet; thence southeasterly parallel to the southwesterly line of Flower Street to the northwesterly line of Lot 7, Block 81 of said Rancho Providencia and Scott Tract; thence southwesterly along the northwesterly line of said Lot 7 to its intersection with the boundary line of the City of Los Angeles; thence southeasterly and southerly along the various courses of the boundary line of the City of Los Angeles to a point one hundred seventy-nine and thirty-five hundredths (179.35) feet northerly from the northerly line of Aviation Drive; thence northeasterly to a point in the boundary line of the City of Glendale, said point being three hundred eight and sixty-three hundredths (308.63) feet northwesterly from the northerly line of Aviation Drive, measured along the boundary line of the City of Glendale; thence northwesterly along the boundary line of the City of Glendale to the northeasterly corner of Lot 2 of Block 96 of said Rancho Providencia and Scott Tract; thence southwesterly along the northwesterly line of said Lot 2, a distance of two hundred thirty-six (236) feet; thence northwesterly parallel to the northeasterly line of Flower Street to the southeasterly line of Sonora Avenue; thence northeasterly along the southeasterly line of Sonora Avenue to the boundary line of the City of Glendale; thence northwesterly along the boundary line of the City of Glendale to the point of beginning.

SECTION 3. The City Clerk is hereby directed to give notice of such election by the publishing of this ordinance and notice in the Pasadena Post, a daily newspaper of general circulation, printed and published outside of the City of Glendale, but in the County of Los Angeles, and such notice shall be published once a week for four successive weeks next preceding the date of such election; and said City Clerk is also hereby directed to give notice of election by publication of this ordinance and notice in the Glendale Daily Press, the official newspaper of said City, a daily newspaper of general circulation, published in the City of Glendale, once a week for two weeks before the time appointed for the holding of said election.

SECTION 4. The City Clerk shall certify to the passage of this Ordinance by the Council of the City of Glendale. This ordinance shall take effect and be in force upon its passage.

Passed by the Council of the City of Glendale, on this 26th day of March, 1923.

SPENCER ROBINSON,
Mayor of the City of Glendale.
ATTEST: A. J. VAN WIE,
City Clerk of the City of Glendale.

STATE OF CALIFORNIA }
COUNTY OF LOS ANGELES } ss.
CITY OF GLENDALE }

I, A. J. Van Wie, City Clerk of the City of Glendale, do hereby certify that the foregoing ordinance was duly passed by the Council of the City of Glendale, at a regular meeting thereof, held on the 26th day of March, 1923, by the following vote:

Ayes: Kimlin, Lapham, Robinson, Stephenson.
Noes: None.
Absent: Davis.

Is It CONTEMPT of COURT?

The **LEGALITY** of the **PURCHASE OF THE AIRPORT** is now before the Court for adjudication. Any **EFFORT** to **INFLUENCE** or forestall the **COURT'S DECISION** may be construed as **CONTEMPT.** If the **COURT** sees fit to thus maintain its dignity, will it not arraign the **CITY OFFICIALS** who have spread propaganda urging citizens to vote for the Bonds? If the Court sustains the contract for purchase that now exists, no Bonds are necessary to complete it.

Don't be fooled by prejudiced propaganda. Wait for the Court's decision.

VOTE NO on the **BONDS.** Avoid complications.

Fertilizer Plant

Do you know that a tentative lease is already made for the establishment of a **FERTILIZER PLANT** on these **"WATER BEARING-AIRPORT"** lands?

If the Bonds are voted and such a plant is erected, it will **CONTAMINATE** our **WATER** supply and the **AIR WE BREATHE, REDUCE** the **VALUE** of **ALL PROPERTY** within miles of its location and drive out residents.

SMASH THE CITY SPOILERS!

Vote **NO** on **PROPOSITION 8—BONDS.**

Vote **YES** on **PROPOSITION 7—LEGION.**

NEWS AND VIEWS OF BURBANK AND ITS ENVIRONS

NATAL DAY OF MRS. SHARP IS CELEBRATED

Methodist Missionary Society Honors Member at Luncheon

Candles burning on a birthday cake gave Mrs. Sharp, mother of Mrs. O. H. Skeen, a happy surprise Friday noon when the members of the Methodist Missionary society met at the church dining room. A large number of the members and friends were present to enjoy the good pot luck luncheon which was contributed by all the guests. As the pleasing climax to the delicious meal, the birthday cake was brought for Mrs. Sharp. She was completely surprised by the honor.

The program for the afternoon was conducted by the Foreign Missionary society with the president, Mrs. E. E. Robertson presiding. The subject for study was India.

The Home Missionary society had a short business meeting later with the president, Mrs. White, in charge.

The enigma contest which has been carried on for the past several months, with the pastor's wife, Mrs. Thomas Allen asking the questions, will close next month. Both the side captained by Mrs. Hollomon and the side headed by Mrs. Cox have made a good showing but at present standing one side will have to work more diligently than the other, to win.

CAN YOU PROVE YOUR TEETH ARE PERFECT?

You can get something free if you are more than 30 years old and have a perfect set of teeth.

As remarkable as it may seem, Dr. Frank Tillson said he believes that there is no one in Burbank over 30 years old who has a perfect set of teeth. The only perfect set of teeth he has seen in town belong to a young girl who is 16 years old.

The Daily Press asked Dr. Tillson if he would give a free examination to any one who is 30 or over who claims to have a perfect set of teeth. "Surely, I will be glad. I am perfectly safe in promising that much time to public service."

A badly told story is a poor relation.

POETS PONDER OVER NEW POEM

Inquiries have been received at the Daily Press office regarding the writing of the short poem which would include all the letters of the alphabet. Poets want to know if it is the intention to have every line begin with the letter. Such a poem would be difficult for most people and perhaps more interesting than a shorter poem which would include all the letters of the alphabet, in words taking only four lines. But as there are no rules governing the contest each writer can settle that question for himself.

MILK TRUCK HITS HUDSON

Why a Hudson automobile was standing by the side of the road without any light at 2:30 o'clock in the morning was more than the police officers could explain. But because it was there, C. S. Smith, 755 West Doran street, Glendale, driving the Glendale milk truck, is now lying in the Cottage hospital at Burbank.

Smith, driving a Reo truck at the rate of 35 miles an hour, hit the darkened Hudson standing at Olive and Main street. The driver was W. H. Cain of Los Angeles. The Hudson auto occupants, if injured, left no report in Burbank, but Mr. Smith was taken to the Cottage hospital, where he is recovering slowly. No bones were broken, but he was badly scratched and hurt seriously on his head.

One fool can always find another fool to admire him.

CITY PRINTING

NOTICE THAT COPIES OF PROPOSED AMENDMENTS TO THE CHARTER OF THE CITY OF GLENDALE MAY BE HAD.

Pursuant to order of the Council of the City of Glendale public notice is hereby given that copies of the proposed amendments to the charter of the City of Glendale by Resolution No. 1815, passed on the 15th day of February, 1923, have been printed in convenient pamphlet form and that such copies may be had upon application therefor at the office of the City Clerk in the City Hall of the City of Glendale.

FRIDAY BRINGS BUSINESS IN BUILDING

Building permits on Friday exceeded Thursday's total by several thousand dollars. The amount for Friday, $17,000, surpassed any day's record of this week in April. Permits issued by Building Inspector Elmer Dale were to Southern California corporation, 2nd and Amherst, $9500; Southern California corporation, 2nd and Amherst, $250; Southern California corporation, $750; William Corryell, 432 West Fourth street, $1500; R. A. Powell, 811 Harvard road, $5,000; total, $17,000.

MUSIC MEMORY CONTEST SCRAP-BOOK CLIPPINGS

"Spring Song"—Mendelssohn

This is probably the most famous of the "Songs Without Words" and is written in Mendelssohn's happiest vein. The mood it expresses is thoroughly in keeping with his prevalent mental attitude—sunny, joyous, hopeful and full of love of life and a mild, pleasurable exhilaration. It was written in London on the first day of June, 1842. It is a perfect embodiment of the composer's impressions of an English spring. Like the English skylark, it soars and floats in the upper air, pouring forth its overflowing delight in a shower of golden notes.

"Toreador Song" From "Carmen"
—Georges Bizet (Bizay)

Georges Bizet (1838-1875) was one of the most promising opera composers of modern times. But he died too young to give forth his full message to the art world. His opera "Carmen" shows him to have been the most promising composer of France.

The "Toreador Song" is about the most popular number in "Carmen." It is heard six times during the opera, it being used to represent Escomillo, the bull-fighter, or toreador. In the most tragic part of the opera the "Toreador Song" is heard as a weird, tragic melody, instead of the triumphant, boastful march. It is a part of the stirring prelude and is also sung in the second, third and fourth acts. In the powerfully sung verse the toreador boasts about himself, in which he describes himself in a bull fight. In the chorus he makes love to the eager Carmen in a boasting fashion. Later the chorus joins in this song, shouting victory to the toreador.

Love makes the world go round—and sometimes keeps it square.

Evening prayer, 7:30.

It's difficult for a man to collect himself when his wits are scattered.

RECITAL DRAWS LARGE CROWD

A two piano number with Grace Lovejoy and Marion Shaley playing the Arensky suite Opus 15, opened a thoroughly delightful program given by the faculty of the Progressive School of Music, Friday evening, at the Edison school building. Under the capable interpretation of the two musicians the delicate beauty of every note was brought to the audience.

Another big number in the recital was given by the Burbank trio, Gladys Schnoor at the piano, Grace Lovejoy playing the violin and Homer Davis the violoncello. This was a singularly effective number due to the model of unity of thought and expression of the three artists. The fine phrasing, setting forth the various moods, brought pleasure to the listeners.

Dr. V. P. Ervin, accompanied by his mother, Mrs. Estelle B. Ervin at the piano, by special request played four numbers from the Music Memory contest. His first two selections were upon the flute. The beautiful silvery tones of MacDowell's "To a Wild Rose" and Drdla's "Souvenir," are especially well suited for the delicate tones of a flute. The richness of Saint Saens' "My Heart at Thy Sweet Voice" and the Italian folk song, "O Sole Mio" was well brought forth and drew generous applause.

Exceedingly pleasing were the vocal numbers of Paul Kent and Marion Shaly. The invigorating song, "Invictus," and "Great Awakening," sung by Mr. Kent with great ardor, added laurels to the singer. Miss Shaley's songs, "Thank God for a Garden" and "O Flower of All the World," flashed and sparkled with color.

The group of three Chopin numbers by Miss Vera Morrow was given vigor and sung with smooth strength from the piano.

CIVIL SERVICE QUIZ POSTPONED

The civil service examination which was to have been given today has been postponed for two weeks and will given Saturday, April 21. Ex-service men will be given the preference over any other applicant.

The passing grade for an ex-serviceman will be 65 while for others it is 70. Postmaster Coffman is hoping that there will be plenty of applicants for good help is badly needed in the Burbank office.

Postal Carrier James, who travels in the business district was delivering his mail in a new leather pouch today. The pouch holds fifty pounds of mail. This is filled to capacity limit on most of his five trips during the day, the three trips in the business district and two to the homes.

When he makes his first round in the morning, he finds few merchants have their doors open by 8 o'clock.

CITY PRINTING

NOTICE OF PUBLIC WORKS

Public notice is hereby given that the Council of the City of Glendale on the 26th day of March, 1923, did, at its meeting on said day, adopt Resolution of Intention No. 1868, to order the following improvement to be made on a portion of Kenneth Road in the City of Glendale.

That the public interest and convenience require and it is the intention of the Council of the City of Glendale to close up, vacate, and abandon for street purposes that portion of

KENNETH ROAD

more particularly described as follows:

Beginning at a point in the northeasterly line of Kenneth Road one hundred thirty-five and four hundredths (135.04) feet southeasterly of the most easterly corner of Sonora Avenue and Kenneth Road; thence southeasterly along the northeasterly line of Kenneth Road to a point in and measured along said northeasterly line sixteen and ninety-four hundredths (16.94) feet northwesterly of the westerly line of Grandview Avenue; thence southerly parallel to the southerly extension of the westerly line of Grandview Avenue across Kenneth Road to an intersection with the southwesterly line of Kenneth Road; thence northwesterly along the southwesterly line of Kenneth Road to a point thirty-nine and twenty-six hundredths (39.26) feet southeasterly of the most southerly corner of Sonora Avenue and Kenneth Road; thence easterly in a direct line across Kenneth Road to the point of beginning.

The district to be assessed to pay the damages, costs, and expenses for said improvement is described in and reference is hereby made to Resolution of Intention No. 1868 for further particulars of said work.

BEN F. DUPUY,
Street Superintendent of the City of Glendale.
3-29-23—10t

NOTICE

NOTICE OF THE FILING OF THE ASSESSMENT FOR THE LAYING-OUT AND OPENING OF KENIL-

TO STUDY SPRING SONG NEXT WEEK

Music Memory Contestants Find Selections Interesting

The study of a music appreciation among the Burbank school children is showing remarkable results. The girls and boys find it a very fascinating study, for they like to learn new facts every day about the music that children of many hundreds of years ago heard and knew. The ease and skill with which they learn to know the beauties of the masterpieces of the ages is surprising to an outsider. Every pupil has shown great interest in the work and they have been helped in their efforts by Miss Frey berger, Miss Brown and Mrs. Schulz.

The ten selections to be studied next week will be: The Spring Song (Mendelssohn); Toreador from Carmen (Bizet); Largo (Handel); Wedding March (Mendelssohn); Anvil Chorus, "Il Trovatore" (Verdi); Home to Our Mountains from Il Trovatore (Verdi); Miserere from Il Trovatore (Verdi); Narcissus (Nevins); Prelude (Rachmaninoff); Liebestraum by Lizt.

"Why did you pray so loud for a bicycle, Edgar?" asked his sister. "God isn't deaf."

"No," replied five-year-old Edgar, "but papa can't hear very well."

CITY PRINTING

WORTH AVENUE, FROM THE NORTH LINE OF RIVERDALE DRIVE TO THE SOUTH LINE OF VINE STREET, TOGETHER WITH THE DIAGRAM OF THE DISTRICT TO BE ASSESSED FOR SAID IMPROVEMENT.

PUBLIC NOTICE IS HEREBY GIVEN that the Street Superintendent of the City of Glendale has filed with the Clerk of the Council of the City of Glendale, the assessment for the laying-out and opening of Kenilworth Avenue in said City from the north line of Riverdale Drive to the south line of Vine Street in the manner contemplated by Ordinance No. 370, together with the diagram of the district to be assessed therefor.

The date of the first publication of this notice is the 30th day of March, 1923. All persons interested are hereby required to file, in writing, their objections, if any they have, to the confirmation of said assessment by the Council of the City of Glendale, with the said Clerk of the Council, within thirty (30) days after the said date of the first publication of this notice.

A. J. VAN WIE,
City Clerk of the City of Glendale and Clerk of the Council of the City of Glendale. 3-30-23—1

BEAUTIFUL

BELLEHURST PARK

IN THE HEART OF GLENDALE

NOW SELLING
LIKE WILD-FIRE!

This magnificent old estate—an enchanted garden in the midst of the fastest forward marching city in America.

Come today—at once—and see with your own eyes these wonderful home-sites covered with fine old palms, magnolias, oaks, and hundreds of bearing orange, Lemon and olive trees.

We are creating here in Glendale a unique residence park for Southern California—one that will rival and excel in beauty the thousand acres of distinctive home communities we have developed in Piedmont and Oakland in the San Francisco Bay region.

Bellehurst Park is dedicated to fine homes. Restrictions are carefully worked out to insure steadily increasing values. All city improvements of the highest type are now being installed at our expense. Pacific Electric trains only 2 blocks away. Four schools within 5 blocks. Very easy terms to first buyers.

THEOSOPHICAL SOCIETY

Investigators are cordially invited to meet with the members of the study class of the Theosophical Society at 311 Oak street, every Thursday evening at 7:30. Bring questions.

Theosophy itself, is not a religion. It is not theory, but fact. It gives a broader and deeper insight of all religions; it condemns none, but explains them. It is a divine science.

Announcement

The Occult Science of Christ church of Los Angeles and Pasadena announces the opening of special services of the church Sunday afternoon, April 8, at 2:30 o'clock, in the Chamber of Commerce building, 150 South Brand boulevard.

The local church is in charge of Rev. Jennie McHenry. Rev. Jennie McHenry has just returned from an extended missionary trip throughout the United States, more recently Phoenix, Ariz.

The opening lecture will be given by Rev. Frank L. McHenry of Los Angeles. Subject, "Spiritualism; Is It Founded On Fact or Fancy?" Message service by the pastor, Harry Ottinger, Mrs. Flora Roberts of Los Angeles, and others. Special music, Mr. and Mrs. Harry Conk of Los Angeles.

Sunday, 8 p. m., "The Purpose of My Work Among You," by the pastor.

The admission to the club is 25 cents.

BIG TABERNACLE
Corner East Broadway and Cedar

Saturday night Evangelist Jeter will give another stirring sermon and produce an oil painting.

Sunday, 2:30 o'clock, Mrs. Jeter will speak on a special Bible subject.

Sunday night Evangelist Jerry Jeter will speak on: "What kind of a young man a young lady should marry and what kind of a young lady a young man should marry."

NEW THOUGHT CENTER
(Masonic Temple)

Dr. Ameen U. Fareed, of Los Angeles, will speak Sunday morning at 11 o'clock, on "The Psychology of Self Mastery" in the Masonic temple, 232 South Brand boulevard. A cordial invitation is extended to all visitors interested in advanced thought.

Sunday school for children at 10 o'clock.

CHURCH OF THE NAZARENE

C. B. Widmeyer will speak tomorrow afternoon at 3 o'clock at the Church of the Nazarene, 1002 South Glendale. There will also be a speaker for the evening service at 7:30 o'clock. Sunday school will be held at 2 o'clock.

FOR SALE

MEN'S U. S. ARMY MUNSON-LAST SHOES AT $2.95
Sizes 5½ to 12.

Never again will you be able to buy these shoes at such a low price. We were lucky in finding a manufacturer, who was overstocked with them, and needed ready cash, so we bought them at almost one-half of the regular price. This shoes is made over the U. S. Army Munson-last, with extra heavy stitching; special grained chrome brown leather used thruout. An ideal shoe for workmen, farmers, icemen, postmen, carpenters and motormen, who are obliged to be on their feet all day.

Send correct size. Pay postman $2.95 on delivery, or send us a money order.

If you are not satisfied with these shoes after you examine them, we will promptly refund your money.

U. S. DISTRIBUTING AND SALES COMPANY

MILFORD STREET CARD CLUB HAS MEETING

Mrs. C. H. Thompson of 348 West Milford street was luncheon hostess yesterday to the members of the Milford Street Card Club. The guests included Mrs. J. H. Southard, Mrs. H. A. McPherson, Mrs. H. V. Brummel, Mrs. Eustace Young, Mrs. Reed Heustis, Mrs. Vinton of Los Angeles, Mrs. H. G. Hosford, Mrs. Emil Johnson, Mrs. Potter, Mrs. Wm. McMillan and Mrs. H. P. Strain. First prize at "500" was awarded to Mrs. Vinton and consolation prize to Mrs. Young. The next meeting will be held at the home of Mrs. Strain.

CHAPTER BA OF P. E. O. HOLDS NOVEL MEETING

An all-day meeting of the members of Chapter BA, P. E. O., was held yesterday at the home of Mrs. Mabel Parker, 705 North Kenwood street. Mrs. Edith Arnold presided at the short business meeting in the morning. The luncheon hostesses were Mrs. Parker, Mrs. Laura Kille and Mrs. Kate Parker. The luncheon proved to be a very novel affair in that it was served in May baskets. In the afternoon the regular program meeting was held and included a parliamentary law drill in the form of a spelling match, which was conducted by Mrs. Eva Cunningham. The prize was awarded to Mrs. Hallie Stamps. A review of Edward Bok's book on "Americanization" was also held.

THINGS "POPPING" IN VERDUGO CANYON TRACT

ACTUAL VALUE IN EVERY LOT BRINGS FLOOD OF PURCHASERS TO TWO OF SECTION'S LEADING TRACTS

Sites in York Boulevard Manor and Sagamore Park Are Rapidly Being Snapped Up By Home Lovers — Many Building Now

Sir Francis Drake, after freebooting with his motley crew on the west coast of South America, landed in California to refit his vessel before returning home. He made such a hit with the natives that they actually shed tears when he departed. Had he lived here in these times, a man of his compelling personality would soon have secured for himself many more millions in old mother earth values than ever it was possible to loot from the treasure galleons of old Spain.

The name of Francis Drake suggests the type of man of which there are many examples in these days. Men of vision and resourcefulness, who, however, have secured their wealth in a more orderly manner. No matter where you were born, you know that the most respected and wealthiest citizens in your community were owners of real estate. They bought the land usually at first hand, that is, from the pioneers or first settlers. Few people can afford to buy acreage property near a rapidly growing city and hold it long enough to make a large turnover. That is why in these days, every one in moderate or even good circumstances should avail themselves of ground floor opportunities in sub-division openings in desirable localities. There is nothing fleeting about land. It is never likely to depreciate in value in Southern California, and it is certain that it will never be lower in price than it is right now. It cannot get away and you will always find it just where you left it. The land is earning money for you while you sleep and you do not have to worry about how the stock market is being affected by the latest news from Europe.

"If you have never been over to York Boulevard Manor, you have missed a delightful experience—and if you have neglected to buy one or more lots in this charming subdivision, you are closing the door against your own best interests."

Thus spoke a Los Angeles man to a friend during a discussion of the amazing real estate activities in Southern California. Interest centered chiefly in subdivision locations in general and the Glendale-Eagle Rock ristrict in particular, where intensive development is rapidly transforming the broad acres of the old Glassell estate into picturesque homesites.

Right in the heart of this most desirable section—the very cream of the entire district is York Boulevard Manor and Sagamore Park, two adjoining subdivisions opened by the Wesley Roberts company to provide suitable homesites for discriminating homeseekers who demand something more than just an ordinary piece of unattractive land on which to establish a home.

Mr. Roberts is a pioneer subdivider, his activities dating back to 1901 and many Los Angeles people owe their start on the road to prosperity to Mr. Roberts' wise selection of property—always where development was sure and rapid and investment safe and profitable. But his crowning achievement is the development of York Boulevard Manor and Sagamore Park, which offer a variety of landscape effects and unusual environment that are sure to appeal to the hard-to-please homeseeker.

People who visit these splendid tracts for the first time are captivated by the natural beauty and charming vistas that meet the eye at every turn. Green hills, smiling valleys and winding road greet you on all sides. A wonderful natural park landscaped to provide alluring end delightful homesites for those who love nature and the quiet and freedom of country life.

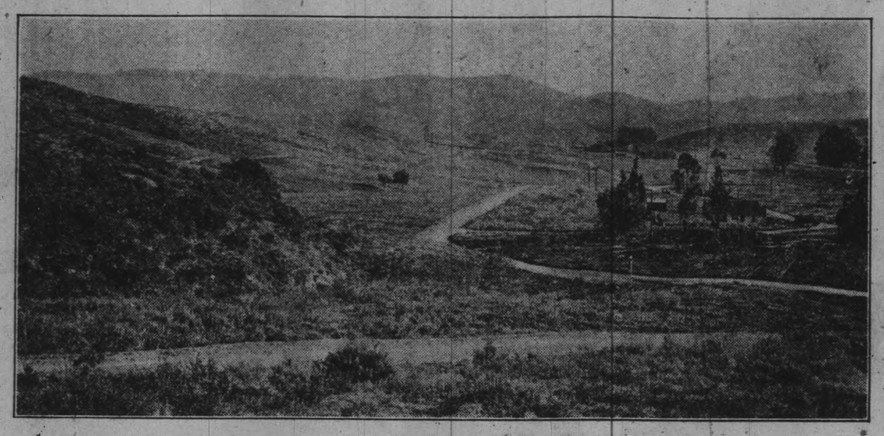
"We have sold York Boulevard Manor and Sagamore Park lots solely on the merits of the property," said E. J. White, manager of Wesley Roberts company. "Intelligent buyers, whether they are looking for desirable homesites or profitable investment, take the time to investigate and weigh carefully the many points to be considered before making a definite decision. We have simply told the public through the newspapers what these tracts are like and where they are situated. We have appealed to the thinking, practical, far-sighted individuals who recognize a safe, sane and sure opportunity for profitable investments.

"As a home environment, both York Boulevard Manor and Sagamore Park are not only ideally located, but they have been also especially favored by nature. There will soon be hundreds of homes scattered among the green hills and pleasant valleys of this beautiful scenic property, giving shelter and happiness to the fortunate ones whose discriminating tastes have led them to our tract offices.

"Besides the homes already established, there are 25 houses now under construction and many more contracted for, including seven pretentious houses of English-type architecture.

"When you consider all the advantages, aside from the picturesque character of the land, which our two subdivision offer to homeseekers, it is not surprising that the demand for lots has kept our six tract offices busy from the opening day. Here are a few reasons why York Boulevard Manor and Sagamore Park look good to many people: The location is in the heart of the Glendale-Eagle Rock district where values are rapidly advancing; less than 20 minutes by auto from downtown; served by a five-cent car line; close to schools, stores and churches; gas, water, electricity; properly graded roads paved with decomposed granite; fertile soil that will grow anything; free from fogs and frosts; cooling sea breezes every day in the year; moderate restrictions and convenient terms. A most attractive proposition to the man of moderate means who is thus able to secure all the advantages of exclusive environment, plus city conveniences, at a price well within his means.

"Our sales up to date exceed $500,000, and many resales, netting the original purchasers handsome profits, have been made. We are still selling lots on terms as low as 10 per cent down and 10 to 15 dollars per month."



VIEW LOOKING EAST OVER YORK BOULEVARD MANOR

EVERY HOMESITE IS A VIEW LOT IN THIS SUBDIVISION

A NEW YORK BOULEVARD MANOR HOME

GARDEN HINTS

If you set out your melons and cucumbers a little early have a pile of hay or straw handy. This can be tossed over them hurriedly with a fork if the evening seems chilly.

Deep planting for carrot seeds is best. Plant them half an inch deep.

A few hills of Swiss chard started in a window seed box will give early greens.

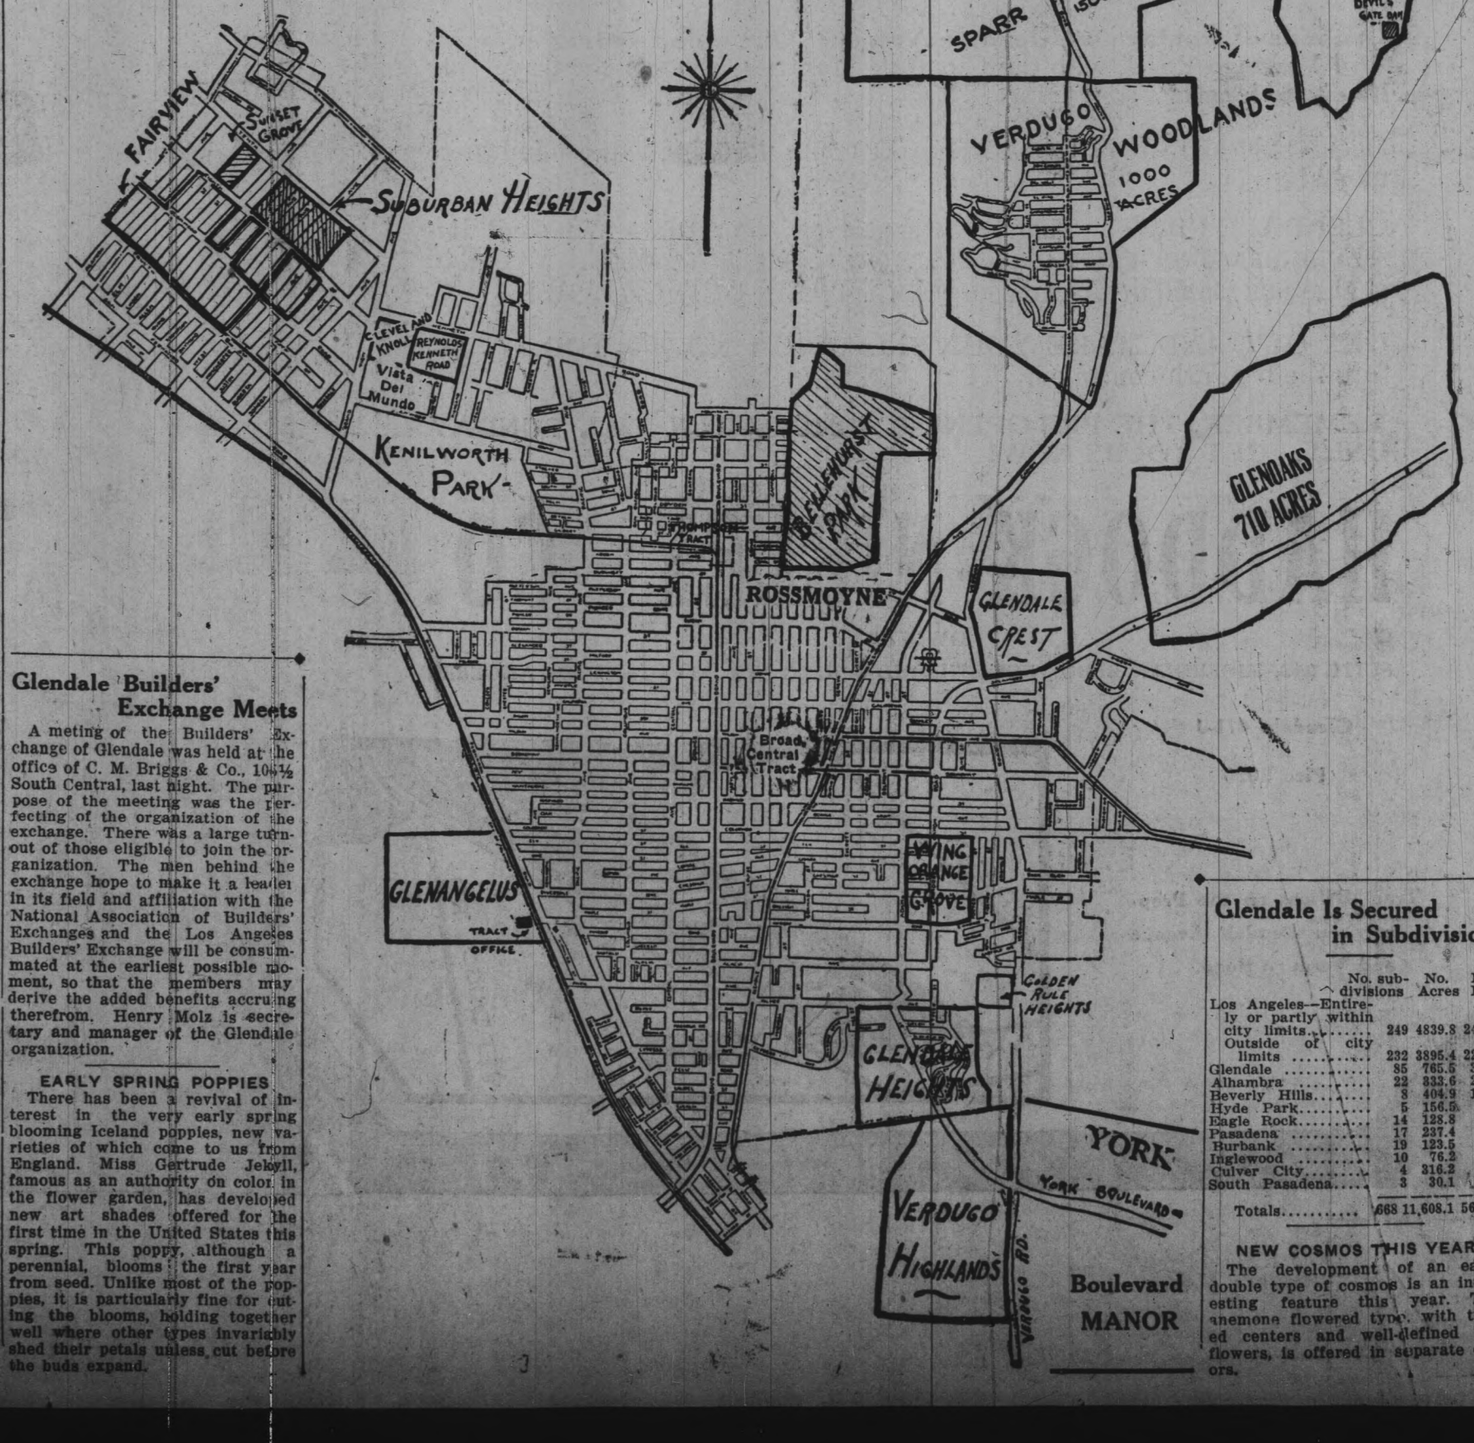
Towns Are Coming to Zoning Plans

Zoning systems are now being adopted in many of the smaller towns throughout the United States.

A year ago only 55 cities, towns and villages in the entire country were zoned. Today there are 109.

Of the towns zoned in the last year, fourteen had populations of from 5000 to 10,000, while 12 had 5000 inhabitants or less.

These small towns, a zoning expert says, have learned to anticipate future growth and to avoid the mistakes made in larger cities as a result of delayed town planning.



Glendale Builders' Exchange Meets

A meting of the Builders' Exchange of Glendale was held at the office of C. M. Briggs & Co., 106½ South Central, last night. The purpose of the meeting was the perfecting of the organization of the exchange. There was a large turnout of those eligible to join the organization. The men behind the exchange hope to make it a leader in its field and affiliation with the National Association of Builders' Exchanges and the Los Angeles Builders' Exchange will be consummated at the earliest possible moment, so that the members may derive the added benefits accruing therefrom. Henry Molz is secretary and manager of the Glendale organization.

EARLY SPRING POPPIES

There has been a revival of interest in the very early spring blooming Iceland poppies, new varieties of which come to us from England. Miss Gertrude Jekyll, famous as an authority on color in the flower garden, has developed new art shades offered for the first time in the United States this spring. This poppy, although a perennial, blooms the first year from seed. Unlike most of the poppies, it is particularly fine for cutting the blooms, holding together well where other types invariably shed their petals unless cut before the buds expand.

Glendale Is Secured in Subdivisions

NEW COSMOS THIS YEAR

The development of an early double type of cosmos is an interesting feature this year. The anemone flowered type, with tufted centers and well-defined ray flowers, is offered in separate colors.

ALLWOOD PINK IS DISTINCTIVE

The Allwood pink, a cross between the carnation and the hardy pink of the garden, with the clove scent of the former, will not displace either the annual pink or the old favorite grass pink in the garden, but has a distinct place as a cut flower, being much more lasting than the grass pinks and bearing larger flowers.

VISION OF HUNTINGTON BROUGHT FAME, WEALTH

By JOHN H. GERRIE
Civic Development Expert

The vision of Henry E. Huntington brought him fame, fortune and happiness. But not even he has a monopoly of nor corner on vision and in California fame, fortune and happiness are yet to be had for the choosing.

When Huntington as a young man came to California in 1892 there was flashed across his receptive mind a prophetic vision of our earthly Paradise upon the shores of the Pacific. He saw more than a land of sunshine and flowers and fruits.

Even then he conjured up a mental picture of a land rapidly filling with quality population from every state. He saw the development of great harbors, the coming of mighty industries, the growth of tremendous commerce.

He visualized a marvelous expansion of hamlets into cities and the merging of cities into the vastest metropolis of the western world. In the hazy future he pictured a single, colossal domain of intelligent humans occupying all of the "Valley of the Angels" from mountains to sea.

"I said to myself 'way back in 1892 that here some day will rise one of the great cities of the world," repeated the white-haired Huntington to this writer in his fine office in one corner of his new million-dollar marble library building on his superb estate in San Marino. "And I felt so sure of it," he added, "that I bought all the property I could handle. I bought real estate in and around Pasadena and in and around Los Angeles, borrowing money and going heavily into debt in order to acquire land to which I took a fancy."

That was vision for you, backed by faith and reinforced by courage. Reflect that thirty years ago the future of California was not nearly so clearly outlined as at present. The biggest crop then was the winter tourist crop and it was small compared with that of today.

But young Huntington, optimistic and enthusiastic, realized quickly that here was the climate sublime, a soil to produce anything, abundant water power going to waste and the open road to the teeming millions of the Pacific. He figured it out to his own satisfaction that, like a snowball rolling down hill, the movement toward California would accelerate in momentum and breadth until it assumed the proportions of a racial migration.

So, against that time, he bought all the real estate he had money to pay for. Not satisfied with that he bought more than he had money to pay for and went into debt to do it. His vision was flawless, his faith superb and his courage of the kind that builds empires. That vision and faith and courage made Huntington many times a millionaire and enabled him to become one of the world's most noted patrons and collectors of art.

It is interesting and instructive to note the advances in values of some of the property purchased in those early days by Huntington. Some of the hill top lands he bought in and near Pasadena for $300 to $550 per acre could not be bought today for $10,000 per acre. Some of his Los Angeles holdings appreciated in even greater ratio.

"In those early days and even up to recent times," said Huntington, "the opinion was generally held in the East that all Californians were inclined to exaggeration when they spoke of the climate, scenery, soil productiveness and opportunities of this garden spot of America. But those who came to investigate almost invariably have decided that Californians didn't tell half enough of the wonders of their country, and so the world is just beginning to appreciate the great advantages of life in this state.

"As a consequence," he concluded, "the inflow of people, of capital and of industries will steadily and rapidly increase until California possesses one of the largest and most intelligent populations in America. Climatic and other conditions eventually will make Southern California the center of art and literature and culture in the United States. And the Los Angeles metropolitan area in that day will contain one of the vastest and most enlightened community populations in the world."

ASTER GROWERS SURPRISED

The New American Beauty type of aster caused a furore among aster growers when its huge, long-stemmed October flowers became known. It is of the late blanching type. Now we have a giant form of the popular comet or ostrich feather type coming under the name of California Giant.

HEAT-RESISTING SPINACH

The new heat and drought resisting spinach of Danish origin is called "Antvorskov," or King of Denmark. It is the last spinach to run to seed, outlasting all others, while in earliness it compares favorably. It also has a heavy leafage.

Rossmoyne

"THE HAPPYLAND"

The Avalanche is on!

We Were Powerless to Stay It! Just the newspaper "story" that we had purchased this property brought reservations for nearly TWO HUNDRED THOUSAND DOLLARS worth of homesites before we could get our pre-opening announcement in the local papers.

It Was to Be Expected! Thousands of prospective homeseekers and investors have waited hungrily for the opening up of the famous ROSS RANCHO, extending from Doran Street to the mountain tops.

It is the "picture spot" of Sunny Southern California!

It is "Happyland!" It is "Fairyland!" It is "Heaven on Earth!"

Over 700 acres of undulating landscapes where Nature has lavished her choicest adornments! Hill and dale; canyon and woodland; where every home will be "a thing of Beauty and a Joy forever."

Full bearing Orange trees, Grapefruit, Olives, Live Oaks or Sycamores on EVERY LOT!

Winding mountain drives, broad surfaced boulevards, scenic bridle paths into the very heart of Nature!

Villa Sites, Manor Homes, Romantic Bungalows, where every home will be its owner's castle! No apartment houses; no duplexes. Adequate restrictions such as the high character of such a choice homing-place demands.

One mile of frontage on Glendale Avenue. One mile fronting on beautiful Verdugo Road, with the Glendale-Montrose electric car traversing **its entire length.**

Over ONE MILLION DOLLARS to be put into immediate improvements!

GLENDALE FIRST! That is our sentiment, therefore—We shall defer our announcement in the Los Angeles papers ONE WEEK MORE to enable our Glendale friends to MAKE THEIR CHOICE NOW!

GET OUT AND MAKE YOUR SELECTION NOW — TODAY! before the big rush comes on.

REMEMBER, THE PRE-OPENING PRICES RUN TILL SUNDAY ONLY. GET YOURS NOW!

SANITARIUM LOTS MAY NOW BE SECURED

It is rare indeed that in the center of a thriving growing city there exists intact a large block of business lots standing as the impediment to the development of the district in which they are located, but that is exactly the condition that has existed in Glendale for the last five years on Broadway where the Glendale Sanitarium has maintained its institution. But this obstacle is now to be removed and the tract subdivided for business purposes.

The Glendale Sanitarium company, owners of the property, have acquired a site farther removed from the center of the city of Glendale and are now erecting their magnificent fireproof buildings on that site. In seeking to carry out their more extensive plans they have found themselves facing heavier demands for funds and the decision to dispose of the Broadway site is the result.

Numerous inquiries for portions of the property have been received by the sanitarium during the past three months since it became known that they were to change their location, and it has been seriously considered as the new civic center for the city of Glendale.

Many efforts were made to secure the property by local brokers and successful operators in many of the outlying districts. After a careful consideration of the experience and the facilities offered by various organizations the directors for the Sanitarium company decided to place the entire property in the hands of the Guy M. Rush company who have been handling projects of this type in the east, middle west and on the Pacific Coast and who during the past year, with their eastern associates, have negotiated and closed sales of over $10,000,000 worth of industrial and subdivision property, the most notable of these sales having been that of the Willys Corporation at Elizabeth, New Jersey, the sale of which was negotiated by Mr. Rush in June of 1922 for $5,525,000.

"Only at rare intervals in the history of the growth of any thriving city is there a change in the trend of its business district which offers such an extraordinary opportunity to make tremendous profits," said Mr. Rush.

"A few years ago in the city of Los Angeles a group of men with ability to foresee future development, realized that West 7th street, a cross town artery, leading from the industrial center to high class residential districts, would eventually become a shopping center of the city. These men pioneered the way; removed the few obstacles that were apparent and today 7th street represents in land value the highest priced business property in a great city.

"A similar condition exists in the city of Glendale, often referred to as 'the fastest growing city in the west.' Broadway is a street which, while lined with stores on both sides from Brand boulevard to Glendale avenue, has been somewhat retarded in its growth because of the fact that for years the sanitarium, although it has proven of great public service, and always maintained its beautiful grounds in excellent condition—has been, nevertheless, an obstacle and impediment to the growth of this great business district.

"Conditions have now made it possible for the Glendale Sanitarium to develop a magnificent group of new buildings further to the east and the extension of these and plans for others are beyond what was first contemplated. This has made it imperative for them to dispose of their present holdings, in the heart of Glendale, on a basis which will insure the immediate sale of all of the property and give them the funds with which to complete their new project.

"Several days ago one of the best known community development and landscape engineers on the Pacific Coast, Mr. Mark Daniels of San Francisco, a man whose experience has been gained by the development of the civic centers of more than forty cities, visited Glendale, and when his attention was called to the location of the Broadway business center tract and he was told that it was to be thrown open to public sale, he stated without hesitation that if Glendale only followed its natural trend, as he had observed in many other localities, the section between Glendale avenue and Brand boulevard on Broadway should become the real business center of the city."

ASPARAGUS MAY BE GROWN FROM SEED

Asparagus au Gratin

Use the tops of cooked asparagus for this dish. Place the asparagus cut into inch sections in a baking dish and pour over it a white sauce. Season the white sauce with a dash of nutmeg and a dash of cayenne, otherwise it will be too bland. Sprinkle bread crumbs and grated cheese over the top and bake until browned.

Many gardeners, particularly amateurs, find the raising of asparagus beds from seed more successful than from plants usually sold. They are apt to neglect proper care in planting the roots, while the seedlings may be allowed to grow where they sprout if properly thinned out. However, it is best to sow the seed in a seed bed or seed row and then select only the strongest and straightest seedlings. Discard those with twisted, deformed or wiry stalks.

Sow the seed in thoroughly enriched soil in rows one foot apart and the seed one inch deep. The seed should be soaked for at least 24 hours in lukewarm water before planting, it will not germinate for two or three weeks. The following year the best of the plants may be selected and transplanted into a permanent bed two feet apart in rows four feet apart. The check in transplanting is slight as compared with the nursery roots which necessarily are some time out of the ground in a nursery before they are sold.

Careful growers often wait until the seedlings develop to flowering age and then select only those plants which do not bear flowers to avoid the berried plants which are apt to scatter their seeds through the agency of birds all over the place.

In digging the seedlings a spade should be used as even when quite small they send their roots down to an unusual depth. Plant the crowns fully as deep under the surface as they are when the plants are dug. It will do no harm to set them a little deeper to allow for the settling of the soil. A bed should bear in three years from seed.

NEW TYPE OF ASPARAGUS

The Department of Agriculture at Washington developed the rust-proof asparagus called "Washington," which is supplanting older strains in regions where rust is prevalent.

If a man amounts to anything in a small town he soon begins to think that he would amount to more in a big town.

York Boulevard Manor

The Cream of the Glendale-Eagle Rock District

Look around—go North, East, South and West—you can buy lots in any direction. Study location, natural advantages and prices. Then come out to YORK BOULEVARD MANOR and you'll understand WHY discriminating people with business sagacity and an eye for beauty are keeping our six tract offices busy seven days a week.

Here are a few good reasons why YORK BOULEVARD MANOR looks good to so many careful buyers:

Ideally located among the green hills and fertile valleys of the old Glassell estate, in the heart of the Eagle Rock-Glendale district, where values are rapidly advancing; less than twenty minutes by auto from downtown; served by a five-cent car line; close to schools, stores and churches; gas, water and electricity; properly graded roads paved with decomposed granite; fertile soil that will grow anything; free from fog and frost; moderate restrictions and convenient terms.

Large Choice Lots $750 up

Terms as Low as 10% Down
Then $10 to $15 per Month

Many homes already established. Twenty-five new houses now under construction and more contracted for, including seven of English-type construction. Sales to date exceed $500,000, and many re-sales have been made, netting original purchasers handsome profits.

FOR HOME OR INVESTMENT, BUY YORK BOULEVARD MANOR LOTS — WHERE BEAUTY AND CONVENIENCE ARE COMBINED TO THE HIGHEST DEGREE, AND WHERE WONDERFUL HILLSIDE AND VALLEY HOMESITES, WITH ALL THE ADVANTAGES OF HIGH CLASS EXCLUSIVENESS, MAY BE SECURED AT MODERATE COST.

HOW TO GET THERE—East on Broadway to Verdugo Road, South on Verdugo Road to York Boulevard Manor—see map on first page.

LAST BELLEHURST LOTS BEING SOLD

Three weeks of record-breaking sales have almost cleaned up all available lots in Bellehurst Park, the new subdivision in central Glendale which has served as the introduction of the Walter H. Leimert Co. in the development of Southern California subdivisions.

This old estate had remained intact practically in the heart of the best residence section of Glendale until the city had almost entirely surrounded it. Then three weeks ago it was announced through the Los Angeles papers as a new restricted subdivision to be limited to high-class homes and to be developed by the Walter H. Leimert Co. along lines similar to the noted tracts in Piedmont and Oakland that have been successfully handled by this firm.

The instantaneous response surpassed all expectations and clearly showed the actual demand in Los Angeles for good residence property, well located and near transportation such as the Pacific Electric, which passes within two blocks of Bellehurst Park. But the opening sale was not of the brief variety as it kept up day after day through the week as well as on Saturdays and Sundays, until today there are only a mere handful of these lots left.

According to actual figures submitted by the Walter H. Leimert Co. early in the week, the sales totaled well over three-quarters of ef a million dollars, and by now the million mark will be very nearly reached. "The early buyers today and Sunday will still be able to secure lots at our original prices," said Leimert, "but we feel very confident of selling our last lot in the present tract in a very few days. After our lots are gone no one can buy except from our original purchasers, and naturally prices will rise very rapidly to equal the values of surrounding property, much of which is now actually selling for nearly twice our set price, inside Bellehurst Park."

Glendale will profit greatly from the type of development to be carried out in Bellehurst Park. Great care has been taken in planning the entire subdivision and equal care will be used in making all improvements, including macadamized streets, curb, and sidewalks. City water, gas and electricity will also be supplied to every lot by the developers.

Thus Glendale will soon have a fine, large, restricted residence area of great natural beauty, that will become more and more famous as the years go by and the entire psoperty becomes covered with high-class single family dwellings.

There are still a few of the lots left at opening prices, but the buyer who wants one will have to hurry.

AIMS AND PURPOSES OF BUILDERS' EXCHANGE OF GLENDALE ARE TOLD BY THE SECRETARY-MANAGER

Attorney Henry Molz Gives Brief Outline of What the New Organization, Which Is Just Forming, Is Endeavoring To Do

Attorney Henry Molz, secretary-manager of the Builders' Exchange of Glendale, which organization has just been formed by some of the most prominent men of Glendale, engaged in all lines of building activity, when interviewed today regarding the purposes and activities of the exchange expressed himself in no uncertain terms of the benefits to be derived from such an organization.

"The reasons for the formation of the Builders' Exchange of Glendale are many. The exchange is organized for the purpose of centralizing and controlling the elements regularly and actively engaged in all branches of the building industry, to inculcate just and equitable principles in trade, and by the adoption and enforcement of sufficient and proper laws, rules and regulations establish conformity in commercial usages by its members; to adjust differences or disputes of a business or commercial character arising between its members; to arbitrate and settle controversies or disputes arising between employers and employees regarding labor and conditions; to establish bureaus of information; to secure proper recognition and co-operation from the Architectural and Engineering branches of the industry and from the various civil law-making bodies, to the end that standard forms may be devised, adopted and legally enforced. To make the field of activity of the fly-by-night contractors and dealers a rather hazardous undertaking and to deal severely with those found guilty of dishonest and unfair business practices. To equip and maintain suitable rooms for the daily meetings of its members, for the transaction of its general business, and to establish and maintain a credit bureau and a free employment bureau.

Glendale has made a flying start toward a new record building year, and this is not only the case with building operations, but with pavement contracts as well. Every Glendalian is interested in this activity, and rightly so. No city can grow as has Glendale without these vital factors entering into its life, nor without the hearty co-operation of the entire community.

Despite the infancy of the Builders' Exchange of Glendale, the men behind it are men of ripe experience, and much can be expected of its activity for the future.

The public places untold faith with the men who comprise our membership. If our work is not honest, then more than most industries we undermine the public conscience. We must be faithful and efficient with those things which are intrusted to us, then the charges of incompetence, fraud and treason cannot be laid upon the members of our rank. The business ability, standing and integrity of the members of the Builders' Exchange will bear every investigation. No one can become a member without a record justifying his admission in accordance with the high standards set for membership.

This is why the broad services rendered by the Exchange are as advantageous to every citizen, home owner or not, and upon these fundamentals we have begun to develop, and upon them our structure will grow apace."

SOMETHING NEW AT SPARR HEIGHTS DAILY

Every day brings some interesting development in the affairs of Sparr Heights, the beautiful residential tract on the Verdugo road to the northeast of Glendale and within the limits of this prosperous and fast-growing city.

One of these, of the utmost importance to the owners of homes in the subdivision, is the purchase, within the week, of four and one-half acres by the Glendale School Board, an entire block of the tract, for the erection of a graded grammar school.

The wisdom of the board is evienced in that they have realized the present and future value of Sparr Heights and have secured the property for a school center in the most appropriate place, that block just to the northeast of the Community Center building.

The city is one of those for which a bond issue of $500,000 has just been voted. The location of the property is central to the entire neighborhood and the building will be one of the most modern and approved types, while the grounds are so ample that unusual advantages will be afforded the pupils for out-of-door sports.

The structure is to be planned by local architects and will be in harmony with the high-class improvements of the tract. Its accessibility to transportation by the Glendale, Montrose, La Crescenta car line, as well as by the Verdugo road and the excellent roadways of the tract, was taken into consideration by the board.

Hopes are being cherished by the communities tributary to Sparr Heights that here, in the near future, may be located a union high school. The large and growing attendance upon the Glendale high schools by pupils of the surrounding school districts who have no high school facilities in their own neighborhood is one of the arguments used in favor of this idea.

A union high school located at this point would cut off several miles daily of travel by the pupils attending from the districts to the northeast and at the same time save to the county a large part of the expense which is now incurred in paying for their transportation.

Whether or not this hope of a union high school is realized, the growth of Sparr Heights alone will soon call for high school facilities, and the Board of Education understands the immense importance to the people it serves of providing educational facilities adequate to the growth of population.

Sparr Heights is located at a point where the traffic of the surrounding communities must flow through it in reaching Glendale and through Glendale to Los Angeles. The Verdugo road, upon which the tract is situated, is the only artery through which this traffic can pass. Its beautiful hills command an outlook over the whole valley, and upon them will be built homes whose view over the golf links and community buildings, such as the Community Center and school buildings, and to the mountains that lie on three sides of the valley, can never be obstructed.

The children growing up in this environment of beauty, far from the crowded city streets, breathing the pure air of these hills, will always be healthy, and with the opportunities for hiking, riding and picnicking in close vicinity to their homes, should certainly be happy.

It is a common complaint that there is no permanence to the associations made by children in the public schools of a great city on account of the constantly changing domicile of the pupils. Thus young people are deprived of the pleasure and development that comes from long-cherished friendships and permanent social interest.

In Sparr Heights the children, like their elders, will enjoy permanent associations, for the purchasers of home sites here and the builders of houses upon them are not speculators in real estate, but they are investors in happiness and content who will create lasting homes where they can have advantages afforded by an ideal location and rear their families under satisfactory social conditions.

A man was sent to investigate a warm election contest in an outlying county of Arkansas. He reported that there were just two kinds of people in that county; one kind did not know and the other kind would not tell.

CITY PRINTING

NOTICE

NOTICE OF THE FILING OF THE ASSESSMENT FOR THE OPENING, WIDENING AND LAYING OUT OF STANLEY AVENUE FROM THE WESTERLY LINE OF LOT 32 OF THE WATT'S SUBDIVISION, AS PER MAP RECORDED IN BOOK 5, PAGE 201, MISCELLANEOUS RECORDS OF LOS ANGELES COUNTY, CALIFORNIA, TO THE WESTERLY LINE OF VERDUGO ROAD, TOGETHER WITH THE PLAN OF THE DISTRICT TO BE ASSESSED FOR SAID IMPROVEMENT.

PUBLIC NOTICE IS HEREBY GIVEN that the Street Superintendent of the City of Glendale has filed with the Clerk of the Council of the City of Glendale, the assessment for the opening, widening and laying out of Stanley Avenue from the westerly line of Lot 32 of the Watt's Subdivision, as per map recorded in Book 5, Page 201, Miscellaneous Records of Los Angeles County, California, to the westerly line of Verdugo Road in the manner contemplated by Ordinance No. 420, together with the diagram of the district to be assessed therefore.

The date of the first publication of this notice is the 30th day of March, 1923. All persons interested are hereby required to file, in writing, their objections, if any they have, to the confirmation of said assessment by the Council of the City of Glendale, with the said Clerk of the Council, within thirty (30) days after the said date of the first publication of this notice.

A. J. VAN WIE,
City Clerk of the City of Glendale and Clerk of the Council of the City of Glendale.

MONTROSE IS THRIVING IN THE CANYON

Little Community Is Developing Own Business and Home Center

The visitor who makes the pleasant trip over the Glendale and Montrose Railway to the thriving town of Montrose, five miles north of Glendale, these days, is at once attracted by the evidence on every side of growth and development. The residents of that community believe, and with good reasons, that the next few years will see the locality forge ahead as few communities in this rapidly growing country have gone ahead. The town nestles in the foothills, the plat of the city being in an oval shape, conforming to the contour of the hills and valleys. It is located on an elevation of from 1100 to 2000 feet above the sea, where the air is of the purest; fogs are rare, and water is of the best that nature produces.

Several purchases of business lots have been made recently upon which new buildings are to be erected, and resident lots are being purchased every day by discriminating purchasers who are looking for an ideal location for homes.

Montrose is located at the junction of two boulevards—one leading to Tujunga, Sunland and through the San Fernando Valley to San Francisco, and the other to Pasadena and points east.

The community already boasts of a first-class bank, lumber yard, hardware store, garages, filling stations, and all of the other lines which go toward the making of a growing and up-to-date community. And the several real estate firms now doing business there are doing their full share toward bringing Montrose and vicinity to the attention of the outside world.

BLANCH DANDELIONS FOR SALADS

Pick out a few husky dandelions and set flowerpots over them. Blanched dandelions make a fine spring salad.

CLEAN KIDNEYS BY DRINKING LOTS OF WATER

Take Salts to Flush Kidneys if Bladder Bothers or Back Hurts

Eating too much meat may produce kidney trouble in some form or other, says a well-known authority, because the acids created excite the kidneys. Then they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so that it no longer irritates, thus often ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithiawater drink which millions of men and women take now and then to help keep the kidneys and urinary organs clean, thus often avoiding serious kidney disorders. By all means have your physician examine your kidneys at least twice a year.—Adv.

Along Meander Way, Flintridge

Residence of C. S. Black in Dist ance

DON'T BE A DUB WHEN YOU FARM

Too many gardeners still follow the practice of buying and sowing radish, sweet corn or aster seed, instead of buying, sowing and enjoying the delight of harvesting golden bantam corn, scarlet globe radishes and American Beauty or ostrich feather asters. In other words, they stopped learning when they knew how to sow and cultivate a crop and remain content in complete ignorance of the finer points of the gardening game. There is some excuse for a man settling down to be a golf dub, for it is often hopeless to beat 100. But there is no reason except lazy-mindedness for remaining a dub gardener.

The business of producing and marketing garden seeds is not what it used to be. Catalogues no longer depict watermelons that fill a hay-rick and beans six feet long. Our memories of such things are childhood recollections. Nowadays a seedsman prides himself on picturing accurately the characteristics of the vegetables and flowers his seeds will grow, and the more exact his descriptions are the more he is pleased.

Names have been standardized to a large extent and with every class of vegetable certain well-fixed varieties, having definite and distinctive merits, have become known throughout the country each for certain purposes. To become familiar with these is no harder than reading a treatise on golf and more valuable and far rarer. A gardener who knows all about the various standard flowers and vegetables can hold a suburban gathering enthralled for hours.

Every year some advance is registered in the improvement of our vegetable strains, either in developing disease resistance of better flavor.

What is the biggest variety of head lettuce New York or Wonderful. It produces cabbage-heads weighing three pounds and stands hot weather well. Sow it for a main crop in ground rich enough where you can supply water, feed it regularly with nitrate and you will make your neighbors envious.

There is always a race in every neighborhood to produce the earliest peas. What is the earliest variety? It is Alaska, which matures in 45 days, but has smooth-seeded peas, not so sweet as the wrinkled kind. It stands cold, wet ground, however, better. If harvested young they are delicious. American Wonder is the earliest wrinkled pea, maturing in 55 days, closely followed by Laxtonion and Little Marvel. The largest podded pea is a tall variety, Quiet Content, which Henry T. Finck, author of "Gardening With Brains," says is the finest of all. Little Marvel is excellent for the home garden, because it remains tender so long on the vine.

These are a few of the facts about standard varieties which the inquiring gardener gets to know, and which make his harvest so much more enjoyable because he knows he is playing at the top of the garden game, and enjoying the finest quality of food possible to have on this earth.

With the approaching completion of the Flintridge school, which will be ready by the opening of the September term, comes announcement of the installation of a new Flintridge community playground to be generously fitted with modern playground apparatus, including sand boxes, swings, slides and equipment for games.

This new appointment will make Flintridge more than ever a "paradise for children." Flintridge is an ideal community in which to rear children because the environment is uniquely suited for happy, healthful youth. The wholesome out-of-doors life of Flintridge contrasts strongly with the vitiated artificial atmosphere of the city.

It is a notable fact that many of the new residents who are just now establishing themselves in Flintridge, were most strongly drawn to Flintridge by the advantages it offers to children. Real estate promoters frequently announce that their holdings combine "country advantages with city conveniences." At Flintridge this combination has been effected in the interests of children in a most real and happy way. The Flintridge school and playgrounds in connection with the regular bus service to neighborhood high schools, meets the most exacting educational requirements of the youth of Flintridge. While the oak-studded hills and dales of the Flintridge parkland offer the recerational opportunities that are equally essential to growing children.

GIANT PETUNIAS ARE NEW

California sends another remarkable development in the Giants of California petunias, huge frilled and ruffled beauties of surprising coloring and marking.

SALES OF LUMBER ARE MOUNTING HIGH

The oldest lumberman has probably never witnessed a market such as we have at present, says the West Coast Lumberman.

Probably never in the history of the industry have our Pacific Coast lumber mills been so heavily loaded with orders at this time of the year.

Last week's association report, showing orders accepted by 135 mills, amounting to over 143,000,000 feet, is unparalleled in the history of the industry.

In fact, the fir sales were considerably in excess of those of the same period in yellow pine. Yellow pine mills are badly oversold which, of course, accounts for some of the business which is now coming to the west coast.

One hears considerable these days about the inability of the Atlant coast market to pay present prices.

In our judgment this need not be taken too seriously. Present lumber prices are not unreasonable.

The great trouble has been that for years lumber has been too cheap.

If building conditions warrant, buyers will be in the market for large quantities of lumber, just as they were during past years.

There is no reason why the Atlantic coast cannot pay as much for its lumber as California or the middle west.

One difficulty is that some buyers way back east have the idea that because Douglas fir and hemlock are new in their territory they should be able to buy it at an exceptionally low price.

The truth of the matter is that these two woods are equals of any lumber ever sold in that market and should command an equally favorable price.

The car situation is now practically normal. Stocks at mills are low and badly broken.

There is a big call for export lumber, but at prices which are for the most part unattractive to mills.

Several million feet of lumber have been taken on for South America and Australia at prices which are away under rail, California or Atlantic coast quotations.

While very little is heard at the present time about the Japanese demand, the truth of the matter is that the Japanese are buying quite freely, space on the Pacific steamers being well filled up into April.

The price of Japanese squares has not advanced as much as has the price on Atlantic coast and California material.

Japanese buyers can absorb a very stiff advance and still be in position to do big business, because outrageous prices have been charged for Douglas fir and hemlock lumber in Japan.

The shingle market is inactive, many mills are idle, the capacity not being much more than 50 per cent of normal.

There is very little demand for shingles anywhere at the present time and will not be for several months.

HUMANE SOCIETIES AIM TO STOP DOG FIGHTING

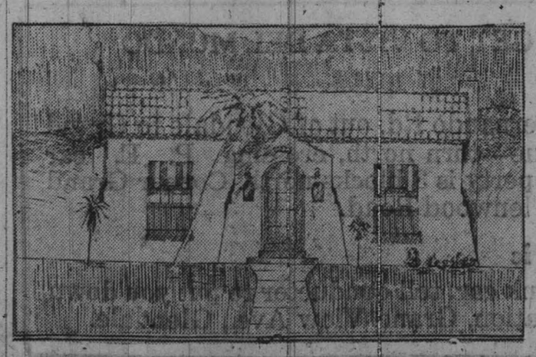
[By Associated Press]

CHICAGO, April 7. — An intensive campaign against the business of dog fighting has been in progress for the last two months by the humane associations of this country, according to a statement issued by officials of the Illinois Humane society.

"The movement was started by the National Humane society and is being taken up generally throughout the country, according to our reports," said George A. A. Scott, secretary of the Illinois society. "The campaign had its incentive in the repeated challenges from one handler of fighting dogs to another published in a magazine that circulates rather freely among dog lovers. It appeared from published accounts of the pedigrees of these bull terriers that the dog fighting business was flourishing all over the country, despite the watchfulness of the humane societies, assisted by the laws of every state and the police.

QUALITY SPEED SATISFACTION

The Dream Model—



Special Price—$2950 Complete

The above is one of our best five-room plans involved in a perfect type Spanish stucco. The above house has select oak floors throughout, all modern built-in features, such as breakfast nook, linen closet, bookcase, mantel and desk, beautiful fixtures and finish.

This is not a cheap house but a scientifically designed house with all waste and useless time eliminated, making possible the use of the very best of material for a reasonable cost.

We have dozens of other plans or our drafting department will draw them to suit you. We specialize in the design and construction of income properties and at the present time have three flat buildings under construction. See our special Spanish stucco flat for $10,500.

But come direct to tract office, open every day, including Sunday.

An engineer was giving evidence, in a case in which a farmer was suing a railway company for damages resulting from the death of a cow which had been run into by a train.

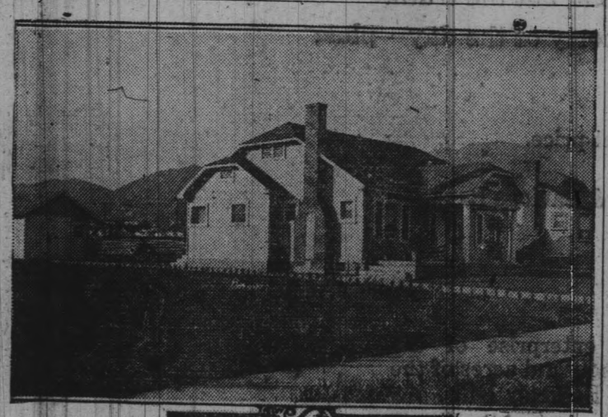
The farmer's lawyer was heckling the engineer, and kept reverting to his pet question, which was:

"Now, tell me, was the cow on the track?"

At last the engineer became angry, and answered the question:

"Well, if you want me to tell the real truth, the cow was bathing in the stream the other side of the track. But the engineer saw it, leaped off the rails, dashed over the bank, and, landing right on top of the cow, strangled it to death without a word."

It sometimes happens that an old bachelor loves little children, although they probably fret him as much as grown people do.



AUCTION

MONDAY, April 9th, 1:30 o'Clock
1057 W. Raymond Ave., Glendale, Calif.

5-room modern frame bungalow, 36x36; garage, 12x18; lot 50x154. LOW BUILDING CO. MOVES TO NEW QUARTERS

New Offices Have Just Been Opened at 416-418 E. Colorado

On account of the large increase in the volume of home-building business it is handling, the Low Building company has been obliged to seek larger quarters and new offices have just been opened at 416-418 East Colorado street. Since establishing the Glendale office a year ago the local firm has erected a large number of houses and plans to build a minimum of 100 structures during 1923 in this city. The firm also maintains offices in Pasadena and has just opened a third office in Alhambra.

Serving as direct factory representatives for Pacific Ready-Cut Homes, Incorporated, the firm has been able to offer all the advantages of the parent organization and assume responsibility for the erection work.

"The Pacific mill is producing materials for more than 3000 homes annually and this has developed a purchasing power that represents the strongest buying unit on the coast," declared Mr. Low, president of the local firm. "By securing our materials from this large mill, ready-cut, we are able to handle many more contracts than if we were obliged to buy the various materials from separate sources. Our labor costs are appreciably lowered as the lumber is delivered to the job in prepared lengths, notched and finished ready to nail in place.

"We have at our command the services of 27 architects and a large corps of specialists which no individual contractor could possibly afford to maintain.

"Our service of giving immediate estimates on the cost of erecting a home of any design or size is meeting with approval. We keep up-to-date estimates on more than 200 designs so that the prospective homebuilder can know immediately what the cost of materials and labor will amount to.

"Of great assistance is our catalogue system. A collection of 125 plans, the choicest California designs, were carefully selected from more than a thousand sets of plans on file. Actual photographs of the homes were taken, miniature blueprint plans reproduced and specifications written. These have been reproduced in a 160-page catalogue of designs which we are distributing. It is unquestionably the largest volume of designs ever produced.

"The preface of the book has aroused widespread interest as a unique parallel is drawn between a declaration by Herbert Hoover and the accomplishment of the ready-cut system. The following is quoted from the book:

"'Herbert Hoover, secretary of commerce, struck the keynote of the building problem prevalent throughout the nation when he recently declared:

"'A great field of service to the building industry itself and to the country as a whole lies in the elimination of those great wastes which are beyond the control of any one individual. If we would secure the housing and construction now so badly lagging behind our needs, we must cheapen its costs.

"'Efficiency in industry is more important to the nation than the margin of profit.

"'We want a nation of homebuilders. The standards of living, to a large part of our people, are higher than in any other part of the world, but if we would extend these standards to the remainder of our people it will be done only by full effort and the elimination of every waste in industry.

"'Waste in manufacture and distribution must be eliminated. I do not intend to enter into details, for I need only to mention the questions of simplification and standardization of dimensions and of quality, the standardization of buying and selling specifications, the greater uniformity in construction contracts, the simplification of building codes and the better synchronizing of different construction industries towards the elimination of intermittent employment.'

"Secretary Hoover has taken cognizance of the fact that the building industry lacks systematization—the very deficiency that we foresaw and have overcome. We contend, as does Mr. Hoover, that in order to cheapen building costs, waste must be eliminated. Efficiency must predominate, standardization must transcend the hit-or-miss methods, and steady, rather than sporadic, employment must be afforded to the milliman and carpenter."

NINE LESSONS IN LIVING

Learn to laugh. A good laugh is better than medicine.

Learn to attend strictly to your own business.

Learn to tell a story. A well-told story is as welcome as a sunbeam in a sickroom.

Learn the art of saying kind and encouraging things.

Learn to avoid all ill-natured remarks and everything calculated to cause friction.

Learn to keep your troubles to yourself. The world is too busy to care for your ills and sorrows.

Learn to stop grumbling. If you cannot see any good in the world, keep the bad to yourself.

Learn to hide your aches and pains under a pleasant smile. No one cares whether you have earache, headache or rheumatism.

Learn to greet your friends with a smile. They carry too many frowns in their own hearts to be bothered with any of yours.

VISTA DEL MUNDO OFFERS BIG VALUES

Few tracts offered to the people of Glendale and surrounding territory have created the "stir" that is being shown over Vista Del Mundo, located on Grand View avenue, Glendale. There is a reason for this, just as there is for everything. This reason is that the values that are being offered in that tract are out of the ordinary—they are unusual, to say the least.

"For the next few days," says the W. H. Rees company, subdividers of this tract, "we are giving the people of Glendale an opportunity to make an investment that should double itself within the next few months.

"The lots that are being offered in this tract, 50x135 feet in size—all good sized lots and plenty large for the average home—these are being almost given away for $1,150 to $1,300. There is nothing so cheap in the entire northwest, and these lots are right in the path of development.

"The owners of this tract told us to sell and we are letting the lots go at from 20 per cent down and the remainder in from 3 to 5 years.

"Just take a look at what we are offering for these prices. When you secure a lot in this tract you get a homesite on a beautiful electrically lighted macadamed boulevard, cement sidewalks, curbs, water, gas, and telephone service, all improvements paid for by the present owners.

"An unusual feature is that each lot has from 20 to 25 full bearing orange, lemon, grapefruit and other trees, with an abundance of fruit ready to pick. These trees afford ideal shade at all times.

"Have you ever seen such wonderful values as these? Can you tell me where a tract in this locality with such a remarkable opportunity for safe and sane investment can be found?

"We have been all over Glendale, but we have failed to see any values that equal ours. The lots are priced way down on the rock bottom, and are just at the point where the man who wants to make a little money must have them."

To reach Vista Del Mundo take San Fernando road out of Glendale to Grandview avenue, turn north, crossing the Pacific Electric car tracks, three blocks north of which the property is located—at the corner of Glenwood and Grand View.

By electric car, take Burbank car, tell conductor to put you off at Brand station, Grand View avenue, Glendale.

YOU SHOULD NOT DELAY LAWN REPAIR

Lown seeding to renovate bare spots damaged by winter freezing and to thicken up the turf, as well as the seeding of new lawns, should not be delayed. An idea of the amount of seed necessary is given by the following figures which refer to recleaned seed of the best quality. For new lawns, one pound of seed should be used for each 300 square feet, for one quarter of an acre 25 pounds. To build up old lawns, one-half or less will be sufficient, depending upon the condition of the spd.

On established lawns at this time, either commercial fertilizer, bone meal, shredded cow manure or pulverized sheep manure dressings should now be given in order that the spring rains may carry the extra supply of plant food down to the roots. The concentrated fertilizers sold by most dealers should be sprinkled upon the lawn as soon as the frost is out of the ground. About 25 pounds to a space of 1000 square feet, 50 by 50, is a sufficient amount, and it will be a good plan to mix it with an amount of pulverized dry soil to render distribution easier and prevent any danger of burning. In new lawns double this amount will be needed.

If nitrate of soda is used, scatter it thinly after it has been pounded fine so that there are no large lumps remaining. This is the quickest acting lawn fertilizer in early spring, but as it is only a temporary, spur, other fertilizers should be used later on.

A quick catch for offending bare spots in a lawn is white clover. Many like a liberal supply of white clover in their greensward, while others object to it. If green moss shows in spots on the lawn it is a sign that the soil is sour. The lawn should be given a dusting of lime to remedy this condition and sweeten the soil. Hydrated lime or finely pulverized limestone may be used. A large handful to a square yard is usually enough.

Since writing that ad 7 of the $1000 and 10 of the $1250 lots have been sold.

MT. DIABLO PARK MOVEMENT WINS APPROVAL

LODI, April 7.—Completion of Mount Diablo park through legislative action is being warmly advocated by the officers and members of the Native Daughters of the Golden West.

It is proposed to convert the top of Mount Diablo and its upper region into a vast open-air playground for the people. The claim is made that it would be used for outings by thousands of people who would be unable to reach the High Sierra camp grounds and resorts. On account of its proximity to large areas of population, being near the center of a district which contains more than 1,000,000 inhabitants, it is pointed out that this park would be most convenient for the use of the Boy Scouts, the Campfire Girls, Sunday school pupils, and other organizations of that character.

In this public-spirited effort to secure completion of Mount Diablo park, leadership has been taken by Mrs. Mattie M. Stein of Lodi, grand president of the Native Daughters, and Miss Alice H. Dougherty of San Francisco, grand secretary of the order.

These officers addressed letters to all the subordinate parlors in the state, recommending that resolutions be adopted requesting the legislature and the governor to provide funds for the park, and in addition forwarded to the lawmakers at Sacramento a petition, of which the following is a copy:

"Greetings: The undersigned, your petitioners, earnestly urge the carrying out of the plans for a great state park on Mount Diablo.

"Your knowledge of legislation in other states for the acquirement of state parks prompts us to address you with confidence concerning the creation of the Mount Diablo park, provision for which was inaugurated by the last session of the legislature. It is to be a park reserved for the use of the people of California in perpetuity.

"In this movement public welfare is to be taken into account. The rapid increase of the population of the state forces upon the attention of the legislators the problem of providing breathing spaces and open-air resorts for the present and the future inhabitants of our commonwealth. If this is to be done in California before land prices become prohibitive it will be necessary to act promptly.

"This is why we take the liberty of asking you to give careful consideration to the plans for the Mount Diablo park. A beginning has been made, and it is hoped that the work may be completed through action by the present session of the legislature. The official report of the Mount Diablo Park Commission, appointed by the governor under the provisions of the statute of 1921, is an able document and clearly explains the program for this playground for the people of California."

A similar petition settinug forth additional reasons for the completion of the park has been sent to Governor Friend W. Richardson by the grand officers of the Native Daughters.

SPADING OF GARDEN CORRECTLY IS AN ART

Many people are deterred from gardening through the advice handed down from past generations of foreign gardeners who make the hardest possible work of it. Particularly in regard to the time worn advice to trench the soil, a ditch digger's job.

Many gardeners find that ordinary spading with only a depth of the fork turned over produces very excellent results in the way of vegetables. In fairly good soil this will suffice. If stable manure is at hand, a light dressing spaded in will assure good crops. In the case of light, sandy poor soils, more care is necessary. Few of the vegetables need more than a foot depth of root room and the ordinary spading gives around eight inches. For deep rooting plants like asparagus and rhubarb deeper preparation of the soil is advisable.

By using commercial fertilizer put up in powdered form to be sown lightly upon the surface of the soil and raked in, much of the burden of spading in manure is done away with, but the soil suffers in quality and for the lack of decayed vegetable matter in consequence. This is obivated by spading in decaying leaves in the fall or having them plowed in to rot over winter.

An ordinarily good spading with a spading fork will suffice for the average garden and careful cultivation with a hoe during the hot summer months will do the rest. The main necessity is to conserve the moisture in the soil during dry spells by keeping the surface of the soil stirred and creating a dust mulch to delay evaporation as well as to destroy weeds.

Once the weeds are hoed in the spring it is an easy matter to devote a few moments a day to stirring the soil and preventing the growth of a fresh crop, particularly after rains when germination is fastest.

FRUIT TREE IS 75 YEARS OLD

[By Associated Press]

OLYMPIA, Wash., April 7.—Washington's oldest living fruit tree, the "granddaddy" of the present fruit industry of the Pacific northwest, is getting ready to start on its fourth quarter century of activity.

The sap is stirring in the multifarious branches of the black heart cherry tree on the grounds of the Olympia Golf and Country club, and before many days it will be a mass of white blossoms, as it has been for nearly 75 years.

The giant tree is the last survivor of 700 fruit trees brought across the plains in 1847 by Henderson W. Luelling, who located the first nursery at Milwaukie, Ore. In 1850 David H. Chambers purchased the tree, with three others, paying $5 for it, and carried it on horseback to Olympia.

In 1906 the aged tree is said to have borne 60 bushels of cherries. At that time it was 54 feet across the top and its trunk was three feet in diameter.

Trying to get into heaven on the strength of a tombstone testimonial is a risky business.

BUSINESS SECTION FOR GLENDALE CREST

That Glendale Crest will have a business session has been announced by the J. D. Millar Realty company, owners of the property.

"We have reserved that property which fronts on Sycamore drive as a business district. Sycamore drive is to be made one of the finest boulevards in Southern California, and where it joins Verdugo road at our property, will rapidly become a center of population that will demand the conveniece of a small shopping district. We are restricting the style of buildings to be erected here and will allow fireproof structures only. As there are only a few of these lots to be sold, speculators will probably grab them up at once and the erection of buildings will follow.

"The sale of residence property at Glendale Crest has far exceeded our expectations, over a hundred thousand dollars worth being already disposed of.

"The curbs, walks, streets and public utilities will soon be in and undoubtedly this summer will see dozens of homes in the course of construction.

"The building of the new Glendale high school near our tract has helped us materially in disposing of our lots. Most people realize the added value that a large school gives to property.

"The foothills are beautiful now and many people visit the Crest to enjoy the beautiful view and pick the wild flowers that make their abode there."

EASTER LILY SEEDS NOW GROWN IN UNITED STATES

WASHINGTON, April 7.—Easter lilies can now be grown from seed in this country. Once it was necessary to depend upon imported bulbs from Bermuda. Then Japan got into the market and ten million bulbs have been imported from the Orient.

But now, say the scientists of the American Nature Association better as well as earlier maturing lilies can be produced right at home. This is the result of six years of study at the Arlington Experimental Farm in Virginia at the foot of the hill crowned by the Memorial Amphitheater, where lies the body of the unknown soldier.

The individual grower can raise his own seed by purchasing imported bulbs either in the early winter or at Easter when most of the plants are in blossom, and grow seed for planting the following January. The Americanized lilies blossom in from 15 to 18 months. This decreases the exposure of the bulbs to disease and markedly speeds up their commercial production.

"I am not expecting any package," said the lady of the house.

"This is the number," persisted the driver, looking at his book again. "Name's Higgins, ain't it?"

"Yes."

"No. 74?"

"That's our number."

"Then it's for you."

"I think not. It must be a case of mistaken identity."

"No, mum. It's a case of ginger-ale."

NEW JAZZ DANCING RECORD IS ANNOUNCED

[By Associated Press]

NEW YORK, April 7.—A new world's record for continuous dancing was made by Miss Ruth Holleck and Jack Butler today, when they had tripped the waxed floors of a Broadway jazz palace for 36 hours and 13 minutes. The old record was 27 hours.

Miss Holleck and Butler, who began to fox-trot at 9:47 o'clock Thursday night, finished in a waltz at 1 o'clock this morning. Miss Holleck lost 8 pounds and wore out two pairs of shoes and stockings, while Butler was 10 pounds lighter and minus a pair of thick-soled shoes and sox.

BELGIAN TROOPS SEIZE SHADOWS

ESSEN, April 7.—Belgian troops seized two billion paper marks at Mulheim as part payment of the expenses of the occupation of the Ruhr.

TEN KILLED WHILE HUNTING

SAN FRANCISCO, April 7.—Ten persons were killed and two others injured during the 1922-23 hunting season in California, according to the state fish and game commission.

CHEVROLET AGENCY MAKES FINE SALES RECORD

Frank Winn Prefers a Chevrolet Sedan

SALES FOR YEAR ENDING APRIL 1 TOTAL 675 CARS, MOST OF WHICH WERE SOLD TO GLENDALE MOTORISTS

C. L. Smith Co. Has $75,000 Investment Here—Management Is Elated at Progress—A Few Points About Chevrolet Supremacy

Six hundred and seventy-five automobiles sold during its first year in business in Glendale is the record made by the C. L. Smith company, Maryland at Colorado, agents for the Chevrolet automobile in Glendale.

The first anniversary of the arrival of this firm in Glendale was celebrated April 1, and the managers of this concern look with justifiable pride upon the advancement that has been made by it in the first year of its existence in Glendale.

When the C. L. Smith company took hold of the local Chevrolet reigns, it secured temporary quarters at the corner of Kenwood street and Broadway. For six months it remained at that location, during the construction of its own new home, which it now occupies. The investment of the Chevrolet agency in Glendale represents an expenditure of about $75,000, this including the cost of the building and the two lots, one of which is employed as the used car market. The building is modern in the extreme and is one of the finest auto show and service rooms in this city.

When this firm came to Glendale it employed eight men, now it has 23 skilled mechanics and salesmen on its payroll. A short time ago it secured a lot at 1328 South San Fernando road, which is now used as a used car market and upon which it will some day construct a modern branch agency.

When speaking about the Chevrolet, over which he is very enthusiastic, C. L. Smith, said this morning:

"Man's capital in the business of life in his time. His primary use of his capital is to buy space. From the primordial time to this very hour, his life has been a matter of movement. Man must incessantly move himself and his goods from place to place. He must buy space with his time. The value of his time is measured in terms of space—miles per hour. His capital stock of time is limited to three score years and ten. With this limited capitalization he must ever bargain for more and more space.

"For ages, man bought his space with the horse, whose four feet had a greater purchasing power than his two. He bought space with the currents of rivers and with the winds. He bred the horse to go faster and faster, built faster sailing ships, and thus slowly and laboriously added a meager mite to his little store. He discovered steam, and had his first big bargain at the space counter. His stock went soaring. He crowded steam faster and faster, gaining more and more of space, but it was qualified by rigid rails and vast expenditures of preliminary efforts. His steam machine was master of the man. Man must still go with the machine on the machine's time. Even with the mile-a-minute locomotive, man's great-

ARE AUTO PRICES GOING TO SOAR?

Following the recent increase in tire prices has naturally come speculation as to whether automobile makers will follow the lead of the rubber folks in meeting the growing costs of production with a similar raise of prices.

A good line on what is in the minds of some of the big motor car makers was gotten from Charles W. Nash in his remarks at a luncheon last week at the Los Angeles Athletic club in reply to some pertinent queries by some of the newspaper men present.

In answering their questions Mr. Nash told them in detail of the increased and constantly rising cost of practically everything that entered into the construction of an automobile running all the way from 20 to 40 per cent.

"In the face of this and in view of the fact that automobiles are now selling at the lowest price in their history and makers are giving people more for a dollar than they have ever given them before, what should people expect?" he asked.

Further along in his talk Mr. Nash in discussing the chances of a continuation of the present big auto buying into the latter half of the year, remarked casually that he thought higher prices would help to keep business going. He did not say why, except to remark still later on that there were a lot of people foolishly delaying placing their orders for new cars in the vain hope that prices would be lower later in the year. The inference was plain that he thought that stability of prices even if they had to be higher would help business.

But will automobile prices be put up? Keen and close competition among the various groups of big makers would seem to furnish a negative answer. Is there any maker of any one of the big groups so much stronger and so far ahead of his rivals and pursuers as to have the courage to make such a move?

Surely none of the little fellows could do it and last. Incidentally in this conection Mr. Nash remarked that perhaps the big makers had in mind in maintaining the present low prices in the face of rising production costs the elimination of the smaller makers. Quien sabe?

Competition has always been the public's safeguard against high prices. Such bitter competition as there is now among the big makers would seem to be almost an assurance that whatever increases may be made will only be slight ones.

APRIL RAINDROPS BRING MAY POSIES

April showers in Southern California are bringing May flowers for motorists to enjoy. According to an announcement from the Automobile Club of Southern California the desert regions of this part of the state are in blossom at this time of the year.

Wild flowers are not as profuse this season on the desert as they were last. Word received from the club touring bureau from the vicinity of Palm Springs and other desert points informs autoists that this year's flowers are very beautiful to behold.

In the mountain districts wild flowers are at their best in April and hundreds of motoring parties are enjoying them to the utmost. In the mountains of San Gabriel county and Santa Barbara County hundreds of varieties of wild flowers can be seen. Auto club representatives visiting the vicinity of Pine Hills and San Diego county report acres of beautiful flowers.

AUTO DEMANDS TO BE HEAVY THIS YEAR

According to latest statistics compiled by leading automotive authorities there will be a 10 per cent more motor vehicles bought this year than were produced last year, when a total production of cars and trucks reached 2,550,000.

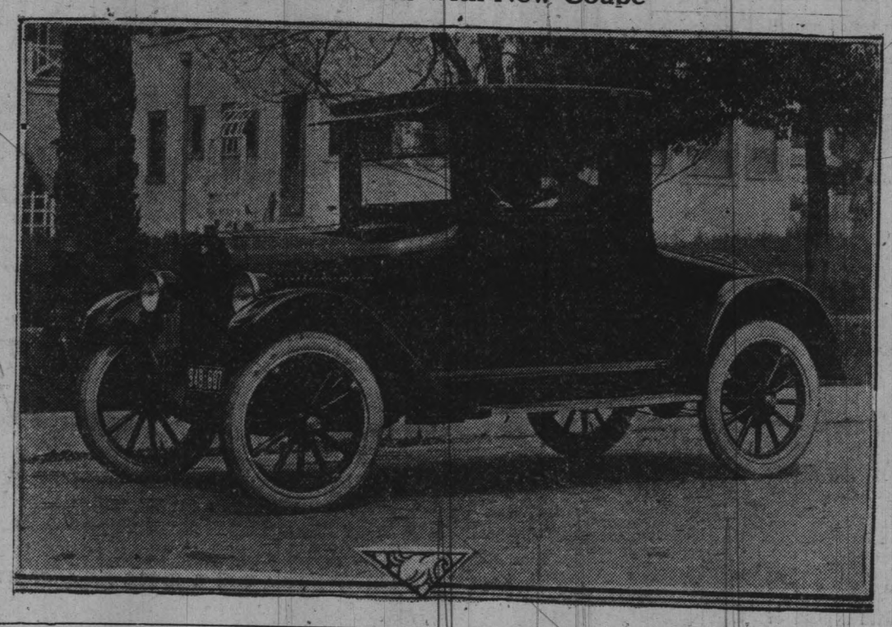
Investigation reveals that approximately 1,650,000 passenger cars will pass their sixth year of service sometime during the next twelve months, which under normal economic conditions means that they will be repaired. This represents the largest replacement market available since the inception of the automotive industry.

It means that about 800,000 cars will be required to fill the demands of "new owners." Production is being speeded to meet that anticipation, and as spring approaches and the "open road" days beckon more motoring enthusiasts to join the horde of automobile owners, dealers are going to have increasing difficulty in making prompt deliveries.

TIRE AND GAS RECORDS

Keep a careful record of the number of miles run and compare it with the records of each month past for gasoline and tires. In this way it is possible to tell what make of tires gives the best results, and if the number of gallons of "gas" increases, the cause can then be investigated and adjusted.

Miss Haviland with New Coupe



MULHOLLAND DR. WILL BE SCENIC WONDER

Eighteen miles of highway along the very ridge of the Santa Monica mountains from Laurel Canyon to the sea is what the proposed Mulholland road means to the motorists of the southland. Such a road has long been the dream of "Bill" Mulholland, the father of the Los Angeles Aqueduct, and it is largely through his efforts that the first step toward the completion of the scenic highway was recently taken.

There is perhaps no more scenic opportunities in all the southwest than is offered by the ridges over which Mulholland Drive will course. It is the beginning of a highway that posterity will rejoice in at every turn of the wheel, and the foresight of men like Mulholland will live long in the memories of Southern California's people.

Starting at Laurel Canyon, the proposed drive will maintain an average elevation of about 1000 feet, and throughout its entire 18 miles the motorist will have an unshackled view of both sides of the range—the San Fernando valley and the Pacific ocean with the Valley of the Cienegas always in the foreground.

It is planned to build lateral roads up Coldwater canyon which will open up one of the most beautiful canyons near Los Angeles, also Franklin canyon, which harbors within its walls two of the reservoirs of the Los Angeles Aqueduct system, Benedict canyon, Longdridge, Dixie, Ventura and Sepulveda canyons. These laterals will give easy access to the sea for the people in the great San Fernando valley and vice versa.

TO AVOID A COLLISION

If a car should suddenly drive across the path of your car, or if a car ahead should turn to the left as you were starting to pass it, turn your car quickly in the same direction taken by the other car, at the same time slowing your car's speed. If an attempt were made to bring your car to a stop without turning, the probability is that you could not stop in time to avoid a collision.

HIGH PRICE IN ENGLAND

Retail prices of American-made cars in England are from 80 to 100 percent higher than the cost for the same models at home.

LOOK OUT FOR MR. SKID, FRIEND MOTORIST

Gentle rains threaten to sneak upon the unwary motorist this month and cause a lot of grief for him if he doesn't look out. We have with us "Mr. Skid." "Mr. Skid" is not a person but he is a very dangerous agent nevertheless, declare officials of the Auto Club of Southern California.

"Mr. Skid" is a ghostly passenger who travels with every motoring party when ever they go out in the rain or on sprinkled streets. Mr. Skid is like the old man of the sea. He just sticks with your car through thick and thin and the only way to get rid of him is to chain him. You can chain him by putting skid chains on your wheels when you drive on slippery pavement. If you do not, Mr. Skid will have one hand on your steering wheel all the time and is liable to make things very unpleasant not only for yourself but for any other automobile you may encounter on the road, points out the Auto Club.

He gets busy when you least expect it and when you are sailing along a smooth slippery road all of a sudden he gets in his dirty work and you go slithering off into the gutter or somebody else's innocent machine.

Don't take a chance! It only takes a minute or two to put on chains and it may save several months of grief and expense. If you want to come to a stop on a slippery road the unexpected is liable to happen and you find yourself continuing on perhaps into a smash-up. Eighty-nine people have been killed in traffic accidents in the county of Los Angeles, California, alone since January 1. In March there were 553 persons hurt in traffic crashes and during the same month the year before there were only 506 injured.

MANY CARS UNDER $500

According to estimates of the automobiles built in 1923, 34 per cent will sell for less than $500, 33 per cent will be in the $500 to $1000 class, 19 per cent in the $1000 to $1500 class, 7 per cent in the $1500 to $2000 class, 3 per cent in the $2000 to $2500 class and 4 per cent in the class selling above that figure.

GOVERNOR'S LICENSES

The license plates of the three private automobiles owned by Governor Pinchot of Pennsylvania are 11, 111, and 1111. The number on his state car is 1.

IMPERIAL VALLEY TO GIVE AUTO SHOW

General interest throughout Southern California is centering on the big auto show to be held in the Imperial Valley at El Centro by the Automobile Dealers' Association from April 10 to 14.

Many inquiries have been made at the offices of the Automobile Club of Southern California in regard to the best routes to follow to this show which is a focal point for hundreds of motoring parties each year because of its many unique features and because it is held in the heart of the rich Imperial Valley agricultural district.

Scores of motorists will tour to the valley via San Diego and Meyers Canyon, and others will seek the route via Beaumont and Banning. The annual trip to El Centro for the auto show is becoming an event with Southern California automobile owners.

VAST SUM FROM AUTO LICENSES

The semi-annual statement of receipts of the Division of Motor Vehicles show a total net collection of $476,150.96, which amount is divided equally between the counties from which it was collected and the State Highway Commission.

The money turned over to the Highway Commission is to be used for maintenance purposes on the chain of state highways, while that returned to the counties is to be used for county road purposes only. This makes an amount of $238,075.48 for each.

Will H. Marsh, chief of the division, shows that 114,297 automobiles were registered in the period from August 1, 1922, to January 31, 1923. There were registered also 2075 motorcycles, 4226 trucks and 926 trailers.

It is bad practice to start any car from intermediate. In order to do so it is necessary to slip the clutch, which in time will give you trouble.

MORE TRUCKS ARE NEEDED ON WEST COAST

Some interesting statistics have been secured by the recent farm survey made by the National Motor truck committee of the National Automobile Chamber of Commerce. It was conducted in co-operation with the department of farms and markets in the various states, through the county agent, who is perhaps closer to the farmer than any other agency.

The result of the investigation showed that on the 2,187,080 farms in the United States there are 138-308 motor trucks now in use. Of the 1,218 counties covered, 740 or 61 per cent stated the need of more trucks. Seventy-eight per cent of them, or 754, preferred one to two ton trucks.

The answers received from the seven Pacific coast states are interesting. They disclose the following fundamental facts:

	No. of Counties Queried	No. of Farms in State	No. of Trucks on Farms
Idaho	18	33,864	1,034
Utah	12	11,283	310
Arizona	7	9,590	589
California	13	24,729	1,463
Oregon	14	22,483	1,795
Washington	12	17,862	2,014
Nevada	4	1,588	247
Total	80	121,300	7,452

The motor truck needs of the Pacific coast states on their farms were declared to be as follows:

	Counties Needing More Trucks	Counties Preferring 1 to 2 Ton Trucks
Idaho	14	13
Utah	8	9
Arizona	5	5
California	7	10
Oregon	6	10
Washington	7	10
Nevada	2	4
Total	49	61

The figures in this recapitulation are indicative of the latest possibilities in the farm field. They are of particular interest at present as it is expected that this year's harvest will re-establish the farmer's normal purchasing power.

OVERLAND BEAUTY MATCHES ITS MOTOR

Matching in every beautiful line and mark of luxurious comfort, the wonderfully quiet, efficient motor under the hood, the Willys-Knight cars displayed at this week's automobile show, present new motor car styles which eclipses in originality and refinement of design all previous Willys-Knight achievements.

The new Willys-Knight coupe-sedan, displayed at the George T. Smith salesroom for the first time, completes the Willys-Knight line—a car of exceptional grace and beauty, a combination of fine workmanship and design, and economy of operation.

The Willys-Knight cars impress one, upon study, as triumphs of engineering skill. From whatever viewpoint they are studied, they live up to the marvelous motor under their hood.

No car in America is easier to steer. Only one car in America, and it costs three times as much as the Willys-Knight, can boast of the same front axle construction. The fatigue of driving is eliminated by this one stroke of genius. Women find the Willys-Knight an unusually easy car to handle.

The rear axle, always the second most important unit of any automobile is a decided feature of the Willys-Knight because of its rugged construction. The housing is of the pressed steel welded type and is designed to withstand many times the maximum load. The axle shafts on the Willys-Knight do not carry any of the car weight—the load is all carried on the heavy tubing, the axle shafts performing only the function of propelling the car.

Nothing has been overlooked for the comfort and convenience of the passengers. One sinks into luxurious cushions as in any easy chair. In the closed cars, windows are raised and lowered with ease with a crank type regulator.

The interior color schemes in the closed cars are rich and harmonious, while the finish of the interior metal work is practical and attractive.

Externally there have been several refinements perfected that will add thousands of new friends to those who have had long service with the car whose motor "improves with use."

The nickel-plated barrel cowl lights, now standard equipment on all Willys-Knight models, add a distinctive appeal, as does the nickel-plated radiator shell, surmounted by an attractive nickel-plated radiator cap with decorative design.

The color of the finish of the hood and cowl has been changed to the distinctive Willys-Knight blue, that has so appealed to discriminating motorists and is still used on the body of the car.

In the touring cars and roadster, bright, long-grain leather of the finest grade is now standard equipment, replacing the dull pebble-grained leather, adding instant appreciation, better appearance and more durability.

An improved design in the shape of the top, which is of high grade water-proof material, whip-cord lined, lends beauty to the general attractiveness of the car's lines.

BUGBEAR OF AUTO DEALER IS USED CAR

Much interest is being manifested by the Pacific Coast dealers in the attempt New York's Automobile Merchants' Association is making to solve for its members the used car exchange problem through the organization of its own used car bureau. Chicago and Detroit dealers, by the way, are said to be also working along similar lines.

Motor car merchants out here also believe that this problem can only be handled locally and it is this feature of the New York attempt that most interests them.

The plan as explained by Motor World's New York correspondent by the president of the association of a permanent used car committee consisting of ten representative dealers in the various price classes. This committee will meet weekly and will also call a monthly meeting of all members for the purpose of discussing used car operations. It will also provide the blanks required in the operation of the plan and will supervise the operation of the used car bureau, which will be organized as a part of the association. This bureau will compile and distribute used car information.

To start off with, dealers entering into the plan will make a report of all used cars sold during the past six months, by months, on forms to be supplied by the bureau. Two different forms will be used for this purpose—one to report the sales of cars of the make that the dealer is now handling and the other to report sales of other makes of cars. This report will give the make and model of the car and the net price, that is the actual selling price less the cost of reconditioning.

After the initial report, similar reports will be made to the bureau semi-monthly. These reports will be used to compile a looseleaf booklet of price information. The sheets in this booklet, which will be issued twice a month, will give the prices which the reports of the members show that the public has actually paid for various makes and models of cars.

Numerous advantages are claimed for the plan. First, every salesman will have in his pocket the prices which the public has paid for various makes and models of cars. The salesmen will be able to show prospects and market value of their used cars. Furthermore the prospect will know that a dealer who offers him more than the market value is in fact cutting the price on the new car.

The report of the committee is introduced by a rather frank discussion of the used car problem. It is stated here that the committee does not believe in charging the new car department with used car losses, and that the used car department should at least break even. If there are losses on used cars, the fact should stand out in red rather than being covered up by the black of new car profits.

THE "TROUBLE SHOOTER"

Shows How to Locate and Correct any Automobile Engine Trouble

By E. H. SCOTT

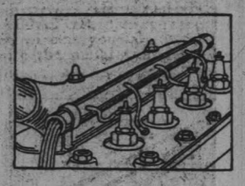
This is the seventh of a series of specially prepared and illustrated articles showing the ordinary automobile driver how to locate any engine trouble

How To Test Your Engine To Find Spark Plug and Valve Trouble

Last week you were shown how to test the Ignition System while the engine is running. We assume you have tested this, and found that it is all right, so now proceed to test the Plugs and Valves.

1. Take off all nuts from the tops of the Spark Plugs, but leave the wires resting on the Plugs. If you have quick detachable terminals on the Plugs this will not be necessary, so—

2. If you have a four or six cylinder engine, then lift off all Spark Plug wires BUT THE ONE ON THE PLUG IN THE CYLINDER NEXT TO THE RADIATOR, taking care to ground the end of each wire as you take it off by laying it in contact with the metal cylinder As you take off each wire, you will notice that the engine slows down, so after you take it off, move the throttle lever up a notch to keep the engine running at a moderate speed. Now you have the engine running on No. 1 cylinder only. If No. 1 cylinder fires regularly, replace the wire on No. 2 Plug, THEN remove the wire from No. 2 Plug. If No. 2 cylinder fires regularly, replace the wire on No. 3 Plug THEN remove the wire from No. 2 Plug. If No. 3 cylinder fires regularly, replace the wire on No. 4 Plug, THEN remove the wire from No. 3. If No. 4 fires all right, then replace the wire on No. 5 Plug and remove the wire from No. 4 Plug. If No. 5 fires all right THEN replace the wire on No. 6 and remove the wire from No. 5. If the engine STOPS when the wire is left on ONE PARTICULAR PLUG, then replace ALL wires and start the engine again and continue until you have tested the other cylinders. If you have an eight or twelve cylinder engine, it will not usually run on one cylinder only, so test each cylinder separately by opening the Priming Cocks just a little, until you hear the sound of the explosion. Do not open the Cock wide open, as you are not able to test as well as you can by opening it just a little. If the cylinder is firing you will hear a good "crack" and if you look down will see a flame. After opening up a Cock, take a wooden handled screw driver, then short the Plug by connecting the top of the Plug and the Cylinder with the metal part of the screw driver. This will instantly show you the difference in sound between a cylinder that is firing and one that is not.



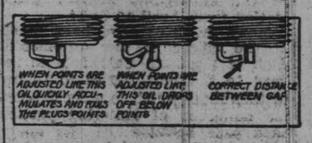
If the engine STOPS ONLY WHEN THE WIRE IS LEFT ON ONE PARTICULAR CYLINDER, or MISSES AN EXPLOSION NOW AND AGAIN ON ONE PARTICULAR CYLINDER ONLY, See A.

If, however, the engine fires on EACH cylinder when tested separately or if it does not fire very regularly on ANY of the cylinders then— Get into the car and drive it along the road, noticing which of the following agrees with the way it performs—

If the engine misfires at LOW SPEEDS ONLY or if it WILL NOT RUN SLOWLY WHEN IDLING, yet runs alright at speeds of 15 miles an hour and over, see article eight next week.

If the engine misfires or hunts at MEDIUM or HIGH SPEEDS, or if it WILL NOT ACCELERATE or STOPS ALTOGETHER WHEN YOU TRY TO SPEED UP, then see article nine which will appear two weeks from today.

A



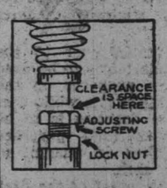
WHEN POINTS ARE ADJUSTED LIKE THIS OIL QUICKLY ACCUMULATES AND FOULS THE PLUGS POINTS
WHEN POINTS ARE ADJUSTED LIKE THIS OIL DROPS OFF BELOW POINTS
CORRECT DISTANCE BETWEEN GAP

1. Take out the Spark Plug and see that it is clean and that the gap is correct. It should be just a trifle LESS than the thickness of a WORN dime. If the Plug is covered with an OILY, BLACK GUMMY deposit, and you have been keeping the oil in the crankcase at the proper level, and using the correct grade of oil, about the only cure is to have new Piston Rings fitted and the Valves ground in. If, however, the Plug is covered with a DRY BLACK deposit like SOOT, your Carburetor is adjusted too rich, have it cut down to run with a leaner mixture. If the Points are WET, you either have a leaking cylinder head gasket or a cracked cylinder, which allows water to creep into the cylinder.

One of the best ways to clean Spark Plugs, is to soak them in a mixture of alcohol and kerosene all night, then in the morning the carbon on the porcelain can be rubbed off with a piece of rag. NEVER use emery cloth or sandpaper to clean the porcelain. It has a highly glazed surface that is easily scratched. When the glaze becomes roughened, it quickly oils up again. The points of the Plug and the metal parts can, of course, be cleaned with a piece of emery cloth.

Examine the porcelain carefully to see if it is cracked. If it is then fit new Plug.

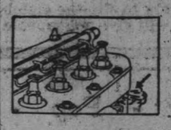
If the Plug APPEARS to be all right, then screw out a Plug from a cylinder that you KNOW is firing regularly, and put it into the defective cylinder and test the cylinder again. If the engine now fires on the cylinder, it proves that the first plug, although it appeared to be all right, is defective and must be replaced. If, however, there is STILL no explosion then—



2. Examine the Valves in the defective cylinder to see that the clearance (as shown in Article Five, No. 8) is correct. If all right, then—

3. Start up the engine and watch the action of the Valves in the defective cylinder, to see if the bottom of the Valve Stem follows the top of the Valve Tappet. If the Tappet comes down and the Valve follows a little later, the stem is sticking in the guide, showing it has warped. If it is sticking try and free the Valve by squirting a little kerosene down the Valve Guide when the engine is running if possible. If, however, the Clearance is all right and the Valve shows no signs of sticking then—

4. Test tension of the Spring on the Valve to see that it is not too weak. To do this insert the blade of a screw driver between the coils of the spring while the engine is running. If this causes the engine to pick up speed, the spring is weak and should be replaced. If, however, it makes NO difference then—



5. If you have a detachable cylinder head on the motor, examine to see if the gasket is blown out at any point. If it is blown INSIDE the head it will affect the TWO cylinders between which it is blown.

NEXT WEEK—ENGINE MISFIRES AT LOW SPEEDS ONLY, OR WILL NOT RUN SLOWLY WHEN IDLING.

Copyright 1922 by The S.N.L. Technical Syndicate

LITTLE AUTO POINTERS

Obey the manufacturer's rule as to lubrication; he knows more about the car than you do.

When soldering the battery connections, always use pure lead, as the compositions will corrode.

The gasoline level in the carburetor varies from an eighth to a sixteenth of an inch below the top level of the spray nozzle.

The automobile industry in this country used approximately 600,000 tons of alloy steel in 1922.

FOR TIRE MILEAGE KEEP SPRINGS OILED

It seems far fetched to tell a man to oil his springs and steering mechanism so that he will get more mileage out of his tires. It isn't, though, for the longevity of an automobile tire is determined by many other factors beside the material in the tire and the road conditions over which it has to travel.

The condition of the steering mechanism and springs has a direct and easily proven connection with the service which the motorist gets from his tires. The resiliency of your springs tends to lessen the abuse of rough road travel on your tires. When the springs are stiff and brittle they don't function properly. The consequent sideway and lurching of the car subjects the tires to an almost constant skidding action.

STEADY BOUNCING CAR

A light car that is inclined to bounce around in the road should be weighted down with sand bags. A bouncing car is bad on tires.

B-WAY AUTO SUPER SERVICE OPENS TO PUBLIC

The Broadway Auto Super Service is now open. It is one of the finest service stations in Glendale and is located at the corner of East Broadway and Cedar street.

Hercules gasoline, one of the peppiest of motor fuels, and also the leading brands of oils and greases are dispensed at this station. The boys who are conducting this station are experts in auto lubrication, tire care, and battery upkeep, having been connected with these lines for a number of years.

Everything in the way of auto accessories are handled at this station, several of the more popular makes of tires are sold, and batteries are sold, repaired and rebuilt.

The proprietors of the Broadway Auto Super Service are C. H. Messenger, F. A. Pratt and F. R. Pierce.

OLD RIMS RUIN TIRES

Never use rims that have been badly dented or even slightly bent. This causes rim cutting, which means the end of the usefulness of the casing.

BALL-BEARING REPLACEMENT

When renewing a ball-bearing, carefully measure each one with a micrometer. A ball one or two-thousandths smaller can be used, but never one the least bit larger.

WESTERN AUTO CO. TO BUILD NEW HOME

A new home will scon be started by the Western Auto Supply company in Los Angeles.

An issue of $350,000 first mortgage 6½ per cent serial coupon bonds, purchased by S. W. Straus & Company, is secured by the land and new four-story Western Auto Supply building to be erected by the Southwest Holding Corporation, at 11th Street and Grand avenue, Los Angeles. This building will serve as the general office, shipping and warehouse headquarters of the Western Auto Supply company, which has sixty-two branch offices located throughout the west. The bonds mature in two to fourteen years. Interest coupons payable April 1 and October 1.

MARCH AUTO SALES WILL RUN HIGH

SAN FRANCISCO, April 7—February's new car sales figures were an eye-opening revelation of how big was California's motor car business even thus early in the new year.

When, however, the March figures are forthcoming they will put February in the shade and reveal to motordom the best month in the history of automobile retail trade in the San Francisco district. In April, of course, spring buying will be in full swing, limited only by the ability of the dealers to deliver cars. In a word, a shortage in motor cars lasting all through the first half of the year seems in prospect. This applies to the popular makes, which seem to be putting most of the little fellows in the "also ran" class.

The average passenger automobile runs fifteen miles on a gallon of gasoline.

FORDSON TRACTOR FILLS EVERY NEED

On account of its versatility the Fordson tractor has come to be known as "the tractor for every use." This refers to whether or not it is to be used in the city or the country. In every locality and under every condition the Fordson tractor demonstrates its remarkable ability to meet every need.

Out in the San Fernando valley, one of the grandest agricultural sections in the entire state of California, there is a regular fleet of Fordson tractors. On almost every farm, regardless of how large or how small, a Fordson is to be found. The cheap upkeep, their wonderful ability to get in and dig and to get into the smallest corner of the farm, are responsible for their popularity.

The Fordson is equally at home in the city. Glendale city has two tractors of this make; Lounsberry & Harris have one; W. A. Mathews has another, and the Longdall Lumber company has still another. All of these people are entirely satisfied with the go-getting little tractor and speak in highest terms of its performance.

THE STAR CAR

One Week Trade-in Feature

During this coming week those who desire to buy STAR cars, but who have old ones to trade in should take advantage of this offer:

PRICES IN GLENDALE

Chassis—Starter and Demountable Rims	$485.32
Roadster—Starter and Demountable Rims	$548.15
Touring—Starter and Demountable Rims	$558.75
Sport Touring—Starter and Demountable Rims	$699.75
Coupe—Starter and Demountable Rims	$759.83
Sedan—Starter and Demountable Rims	$827.48
Panel Delivery—Starter and Demountable Rims	$625.60

Open Evenings and Sunday

Camp in the Open —take Wonderful Trips

A whole world of unusual, healthful, never-to-be-forgotten summer pleasures are in store for you—it's the best sort of a vacation and builds up tired bodies and nerves. Explore wild lakes and interesting mountain roads—the vigorous outdoor life will make you come back to work better prepared for it—you'll face the entire year with better grace and a much happier frame of mind.

We are again Headquarters —*for* Camping Supplies

Wherever you go you can take "Western Auto" Camping Equipment along and set it up wherever you camp in no time at all—then, too, our store managers co-operate with the various Chambers of Commerce. We have road maps at all our stores—ask for one.

"Western" Palmetto Auto Tent

—the striped tent pictured in the camping scene in this ad is wonderfully popular on account of its remarkable compactness and ease with which it is erected or collapsed. No guy ropes used and only one pole, which is jointed in two places and allows the whole outfit to fold into a small package. The price is..... $37.50
In Khaki .....$35.65 In White $29.45

"Camper's Delight" Auto Tent

The tent pictured next to the automobile in the camping scene in this ad is designed to give the user a real house to live in when traveling. It is especially arranged for convenience, is quickly rolled up and takes but little space, the size of tent is 8½ by 7 feet, neat carry-all bag is furnished. The price is..... $35.50
We can also supply you with Auto and Wall Tents ranging in prices from $9.90 to $37.50.

Camp Chairs

No camp is complete without a really comfortable camp chair. We have them in several sizes and styles.
95c to $3.95

Gasoline Stoves

A folding gasoline camp stove which meets every requirement. Just the thing for a satisfying meal.
$6.50 to $13.75

Running Board Restaurant

This is also pictured in the camping scene—it contains every requirement necessary to the convenience of a camping party. Icy-Hot Bottle, an Icy-Hot Food Jar, two nickel-plated Lunch Boxes, Plates, Cups, Knives, Forks, Spoons, etc.
Prices $23.75 and $36.90

Steel Folding Beds

A bed made entirely of steel—very strong and substantial. Folds up into a small compact.
$13.50 to $22.50

Folding Tables

Tables that will hold all your equipment—no tipping or sagging. Makes meal-time happier.
$4.50 to $10.00

Running Board Luggage Carriers

A new adjustable carrying outfit that can be attached to the running board of any car—clamps on securely by thumb screws—no more piling the stuff around on the seats.
Prices from $2.25 to $4.25

Every Accessory for Your Car

Sun and Rain Visors

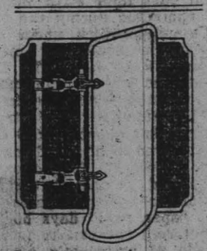
Every car should be equipped with a visor to protect the drver. Our "Durable" is priced at..... $2.95
Other Visors in Pyralin, Green Glass and all metal, $4.75 to $11.50.

Western Giant Spark Plug

Our single-point plug is especially adapted to high speed work and carries a two-year guarantee.
Each 80c

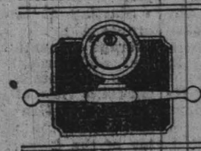
Every-Angle Wings

Will beautify your car, the brackets are made of brass heavily nickel-plated and have double joints, can be adjusted easily. Price, per pair, $18.75. Others at $13.60



Radiator Ornaments

You can set off the front of your car nicely with a beautiful radiator ornament—we carry a varied assortment.
Prices..... 50c to $4.95



Boyce Motometer
$2.10 to $12.75

Fancy Radiator Caps
50c to $4.85

Step and Kick Plates

These plates certainly grace the running board of any car. Prevent slipping. The ultimate development in the search for class.
Prices from..... 85c to $1.50

Leader Spot Light

By simply loosening a screw the lamp can be removed and used as a trouble light. You should add this item to your car. Each. $3.45
Other Spotlights to $12.35

NATION'S NEW GAME HAS MILLION FANS

More than a million motorists went camping last summer, according to statistics compiled. In Yellowstone Park alone, the Department of the Interior reports, 64,364 visited the park by automobile, practically twice as many as made the trip by train.

About 300 cities last season placed municipal camp sites at the disposal of tourists, and 398,000 made use of them. Hundreds of other cities are now planning like accommodations.

Baseball may still be the "great American pastime," but this new healthful, educational and enjoyable vacationing is rapidly increasing in popularity.

Western Auto Supply Company, with its 65 stores, making for a buying power and low retail price only possible in so large an organization, is specializing in motorists' camp equipment.

Fabric Tires

Thousands of customers come back to us year after year for more fabric tires because they get good service. The PHARIS is guaranteed for 7000 miles and the NEBRASKA 6000 miles.

PHARIS *and* NEBRASKA *Fabrics*

WHAT WE WILL GET IN THE WAY OF ROADS

Here Are Latest Reports on Road Program for So. California

Have you been wondering, Mr. Motorist, how the new highway commission is going to take care of Southern California? If you have, let your questioning be settled for all time, for here are a few road facts that are facts.

In the first place, four contracts let by the previous highway commission have been held up at the direction of the present administration, saying that only necessary roads are to be built now, because otherwise there would be no funds. In other words, the days of the pork-barrel highways are over.

One contract to be held up is that known as the Hauser contract, in Ventura, just north of the Rindge ranch, on the Oxnard-Capistrano Coast road. Number 2 to be held up is an $800,000 contract on the road from San Simeon to Carmel, in Monterey county. Number 3 is the Pacheco Pass road, between Gilroy and Fresno, in Madero county, which will save $290,000. The fourth is the Sky Line boulevard, just north of San Francisco.

In Southern California, however, work is going to go ahead on the Malibu road, between Santa Monica and a little north of Topango canyon. That should be good news for all motorists who have struggled along that stretch of highway, beautiful, but tire-destroying coast road.

Work is also going on in widening the Yuma to San Diego road in Imperial county, through the desert section. The old commission let a contract here providing for a road nine and a half feet wide, which the new commission has decided should be 16 feet wide from the eastern boundary of the Imperial valley to the beginning of the Plank road, and this is being put into effect.

One thing which is not an actuality now, but which will be in the near future, is the improvement of the highway through Yuma Indian reservation, thus enhancing road conditions, between Yuma and San Diego.

Work is progressing now on the great projected coast road near Point Mogu. This is the same highway on which work is being done near Santa Monica.

Three contracts are now under way between Banning and Indio on the Ocean-to-Ocean highway through the Imperial valley. In San Diego county day labor work is being done from Myers canyon on the Mountain Springs grade.

At the present time two highway reconstruction jobs are under way on the Ridge Route between Los Angeles and Bakersfield. Leading to this route a new bridge has been built just at the northern limits at Newhall. Another new bridge almost completed is the one known as the San Gabriel.

The present highway commission says they will build a new highway connection from the bridge to the Foothill boulevard just as soon as Los Angeles county wakes up and provides a right of way. In the meantime nothing can be done.

The maintenance, construction and highway improvement program for 1923 includes the expenditure of more than $1,500,000 for the counties south of the Tehachapi. In this program is mentioned the replacing of those timber causeways on the Ventura-Santa Barbara highway which tremble and shake out over the water for a distance of 1½ miles. It is planned to erect a permanent sea wall and make a fill which will result in a permanent road along the ocean.

On this same road the highway commission plans to eliminate the dangerous overhead crossing which is familiar to every auto owner who has ever driven between Southern California and San Francisco. This is considered one of the most dangerous points on any highway in the West and its elimination will be a boon to all motorists.

"QUIET and SMOOTH as your watch"

Can you say that of your car now—
Just as you did when it was new?

You'd like to keep your motor
New, Quiet, Efficient.

Proper attention is the one way to do it.

There's an easy way to be sure your car is getting proper attention—

BRING IT INTO THE

Reliable Garage

Quality of Reo Shown in Speedway Tests

Here is one of the many stunts staged out at the Beverly speedway recently by the Reo company in its 24-hour slow speed, high-gear, non-stop test. The low average was one and three-tenths miles per hour, and the fast at 55 miles per hour. One lap was made at the rate of six-tenths of a mile per hour, and the man crawling could beat it at that. The Reo is handled in Glendale by the Harry E. White, Inc., corner San Fernando road and Brand boulevard.

WHEN BRAKES GO WRONG

The only safe move, if a car should stop or stall while going up a hill and the brakes refuse to hold, would be to back the car crossway across the road, steering the rear end toward a bank or curb. This should be done immediately the car comes to a standstill, not after it has started backward down the hill.

ENGINEERS STUDY ROAD BUILDING

Fifty members of the Highway Departments of Pennsylvania, New Jersey, Maryland, Delaware and Virginia started a two weeks' course in road building at the University of Pennsylvania. The men range from 20 to 50 years of age.

FIVE AUTOS TO EVERY TRUCK

According to records, there are on week days five passenger automobiles operated to every motor truck in Chicago, Ill., while on Sunday the ratio is 30 to 1. Only one horse-drawn vehicle is seen to each 30 passenger cars.

RULES ARE GIVEN FOR RAINY WEATHER

Look out or Mr. Skid will get you!

Slippery streets—careless driving are responsible for many accidents.

Heed the following rules and be safe:

1.—When driving in a closed car during cold or stormy weather with all window closed tight your ears don't serve to detect approach of trains or other vehicles, so well. Therefore it's imperative that your eyes do double duty.

2.—Trains and trolley cars travel fast in the suburbs and stop quickly at intersections in the business districts. They are bad medicine for motorists any time. Watch them and enjoy long life.

3.—In the winter, days are shorter. More night driving is necessary. Evtra light bulbs come in handy, and properly adjusted headlights give better road light and don't blind the other fellow.

4.—A recent decision of an eastern judge provides that you are not relieved of responsibility for injuring or killing a person because you didn't see him. In fog or blinding headlight glare, pull up and play safe.

5.—School signs mean what they say, "Drive Slowly" and protect the kiddies. They trust you, so keep the trust even if it does take a minute more.

6.—Wet streets or watery mud often make non-skids slip. Chains are a nuisance but they are better than a hospital or funeral bill, or even a big repair bill, and they won't work in the tool box.

7.—Insurance is a life saver. Keep your policy up to date. Fire takes only one spark, and one thief that gets away won't get soft-hearted and bring your car back, or any of the accessories either.

8.—Road hogs ought to be hung, we know; but they are always on the job. Give them a wide berth, they may be packing overloads of Volstead bitters.

9.—The pedestrian on the open highway at night, especially in cold weather is another bugaboo to motorists. He is bundled up in dark colored wraps, and seldom looks out for himself. He is hard to see so keep a sharp lookout and save casualties.

10.—Keep the car under control at all hazards. Quick stops on slick streets are disastrous. And even on dry streets they sometimes are just a bit too slow to save the crash. Don't skid. Don't cut in. Don't fail to signal long and emphatically at all times.

BONNIE SAILS AWAY

My Bonnie leaned over the gas tank,
The height of the contents to see,
He lighted a match to assist her,
Oh!—Bring back my Bonnie to me!

MAXWELL MOTOR EXPANDS OUTPUT

NEW YORK, April 5, 1923.—Maxwell Motor Car corporation's production schedule for this year is 60,000 cars, according to an official statement. This compares with approximately 50,000 cars manufactured and sold in 1922. In addition, Chalmers, which is controlled by Maxwell Motor, is scheduled to turn out 13,000 cars. On this production schedule Maxwell Motor's profits would aggregate around $6,250,000, after all interest charges, depreciation and taxes, equal to $37.00 a share on the A stock or equivalent to about $8.00 on the B stock, after allowing the full $8.00 a share on the A stock.

Maxwell Motor's present financial condition is the soundest since its organization, for under the management of W. P. Chrysler, chairman of the board, deferred liabilities of $14,797,000 have been reduced to approximately $6,600,000. When the new management took hold Maxwell had its series, "A," "B" and "C" notes and some $3,250,000 of Chalmers bonds. Last year the total issue of $4,000,00 "A" notes and $1,750,000 of the "B" notes were paid off, though the latter were not due until June, 1923, leaving only about $2,300,00 of the "B" notes.

The series "C" notes do not mature until June, 1924, but it is expected this entire amount will be paid off this year out of earnings.

The above is information received by the Glendale Motor Car company, 124 West Colorado street, Maxwell and Chalmers dealers.

THE BATTERY AND ITS CARE

Self-starting and electric lighting systems require efficient batteries. For this reason the battery should be inspected frequently and the plates of the cells kept covered with electrolyte. A little distilled water added at frequent intervals may obviate the necessity of a new battery.

RUBBER IMPORTED

Of the 600,000,000 pounds of crude rubber imported into the United States each year, 490,000,000 pounds, or 81 per cent, were required last year for automobile tires.

THE PREFERRED CAR—CHEVROLET

Owners of costlier cars—for comfort and dependability—invariably choose to drive a Chevrolet. Not primarily for the economy of its swift transportation—but because of the ease with which it is driven—the quick, silent response of its motor—the trim, smart lines of its exterior, and the lounge luxury of its cushioned upholstery.

The good judgment of connoisseurs sees at a glance that in no other car are embodied all of the quality features found in Chevrolet at the very low price.

Five-Passenger SEDAN

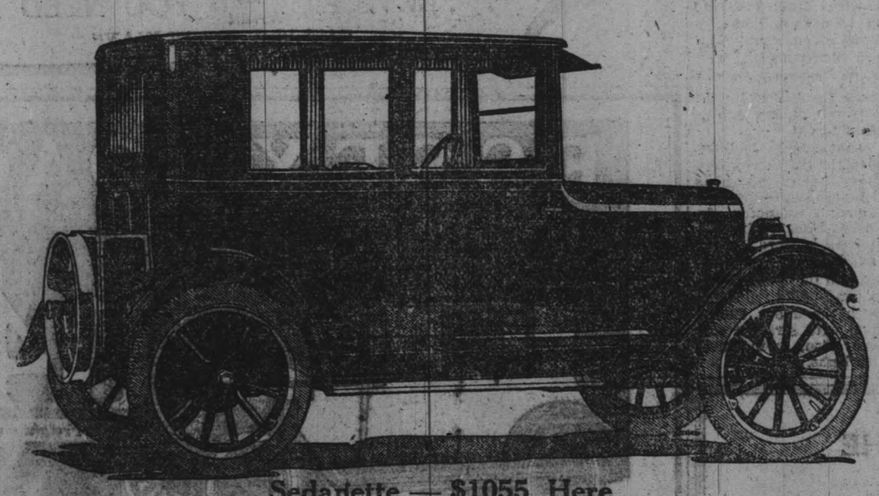
Sedan — $1065 Here

Coupe

Have you driven a Chevrolet Coupe—with its handsome Fisher Body—its beauty of line and luxury of upholstery? Have you enjoyed its roomy comfort—its quietly resilient spring action—its power on hills and easy handling in traffic?

If you have not, there is an unqualified treat in store for you.
We would take pleasure in demonstrating its various delights to you.

Coupe — $877 Here



Sedanette — $1055 Here

The four-passenger Sedanette gracefully meets the need of the small family. Its streamline body is by Fisher. Its shining finish is durable, practical and beautiful. Its powerful valve-in-head Motor challenges hills and valleys alike. The dainty refinement of its luxurious velour upholstery invites repose. It is conveniently equipped with trunk rack.

Quality Features

Powerful Valve-in-head Motor
Oil Pump for Pressure Lubrication
Positive Compensating Cone Clutch
Willard Battery
"V" Fan Belt
Speedometer
Oil Pressure Gauge
Spiral-bevel Rear Axel Ring Gear and Pinion
New Departure Bearing on Pinion Hub
Ball Thrust Bearing to Take Differential Thrust
Hyatt Rear Wheel Bearings between Wheel Hub and Axel Housing—not on Live Axel Shaft
10-inch Brake Drums
Non-Rattling Flexible Steel Brake Cables
Large 9-16-inch Steering Spindle Bolt
Brazed Solid End Steering Connecting Rod, Spring Cushioned
First Quality Tires
Rectangular Plate Glass Window in Rear Curtain (Open Models)
Double Adjustable Ventilating Windshield
Crowned Paneled Fenders
Fisher Closed Bodies
Deep 4½-inch Frame
103-inch Wheelbase
Gasoline Tank in Rear

CHEVROLET AGENCY MAKES SALES RECORD

(Continued from Page 1)

est movement was still with the horse at eight miles an hour.

"Then came the automobile, and the price of space fell. As fast as the steam train, as mobile as the horse, the motor car increased man's capital of time many fold. Man is master of this machine to use it when and where he will. Man began to move voluntarily with slow feet. He was one of the slowest of the vertebrata. But now he darts about the earth faster than the fastest.

"The chief use of an automobile is for transportation of people or goods. Few are willing to pay more for this transportation than is necessary.

"The motto of Chevrolet, 'For Economical Transportation,' is our sole guide in the design and construction both of our passenger and commercial models.

"The Chevrolet company does not endeavor to produce the cheapest automobile, but the most economical, because it is concerned in delivering the utmost per dollar of price in economical transportation.

"The selling price of an automobile, while important, is secondary to the cost of transportation throughout its life. This includes the purchase price and all operating and maintenance expenses for an average period of six years.

"Chevrolet delivers on the average the lowest per year and per mile cost of transportation, therefore it is the 'cheapest' in the long run.

"It has modern style, fine finish, a high degree of riding comfort and engineering efficiency.

"Every Superior model Chevrolet is a handsome car with striking stream lines that suggest smooth speed, a high hood consistent with its powerful motor, latest drum-type headlamps with legal lenses, and a fine, durable finish.

"All closed bodies are by Fisher Body company, whose product is found on the highest grade cars made. In style, upholstery, and appointments, they are of a high standard of quality.

"All windows are of plate glass and have Ternstedt regulators, affording quick, reliable adjustment to suit the weather and temperature.

"Its spring suspension provides exceptional riding comfort.

"Curtains open with doors of all open models, which also have one-man tops and gypsy curtains at rear sides to cut off back draft. The rear curtain window is oblong plate glass.

"Closed models have adjustable curtains on rear window and dash lights. All doors but one have inside bolts, and that one locks outside with a key. Soft tops eliminate the drumming sound noticeable in metal top cars.

"Windshield wiper enables driver to keep the glass free of rain or snow.

"So handsome a car for so small a price is possible only because of very large producing, distributing and financing facilities and seven years of sincere effort to produce and sell the best low-priced automobile. Cars lacking Chevrolet quality and efficiency may sell for less, but cost much more considering upkeep and depreciation.

"In the meantime, Chevrolet is here, the price is the lowest that our large facilities and leadership in sales make possible for a quality car with standard mechanical features. The Chevrolet company occupies the following important positions:

"Manufacturer of the world's lowest-price quality automobiles.

"World's largest manufacturer of high-grade closed cars.

"World's largest manufacturer of standard automobiles.

"The Chevrolet Superior model sedan is an even more sensational value than the pacemaking sedan of 1922.

"Never before has a car of this quality been offered at so low a price. In beauty of design, high-grade workmanship and external and internal appointments this Fisher body sedan compares favorably with that of any enclosed car at any price.

"To see it is to admire it. To sit within its comfortable, home-like interior is to want it. It is the most irresistible offering in the world of motoring.

"Experience has proved that the closed car is the ideal for every day in the year. It is cool and clean in summer and provides the comfort of home in the winter. Its owner is independent of snow, rain or cold. The famous Chevrolet power plant will carry the car through deep snow or soft mud, while the sedan body protects the passengers from flying snow and cold winds. The Chevrolet sedan is the ideal family car when only one car is owned.

"Its low cost makes it possible for families of moderate income to own both an open and a closed Chevrolet for less than the price of some open cars.

"The Superior sedanette is a new member of our line destined to achieve great popularity. There is an air of distinction about this high-grade 4-passenger Fisher body sedanette which appeal greatly to people of taste.

"Women drivers especially favor this model because of its smart style and artistic lines. It harmonizes perfectly with the atmosphere of the country club, fortnight house parties, social functions and sport meets of all kinds.

"The trunk or rear deck affords room for parcels, sport equipment, picnic lunch, etc. Young couples with one or two children like this car, as the whole family can sit near one another without crowding. Physicians choose between this and our single-seat utility coupe according to the seating and luggage capacity required.

"It makes a fine extra car for running out to the country club, taking the children to school, etc., especially for the suburban family whose head drives to business in another car. It is well made, finely furnished and graceful in design, making it a source of pride and satisfaction to its owner. This model is highly appreciated by women as a gift from husband, father, brother, etc.

"Salesmen, professional people, business men, and farmers often prefer a single seated car because of lower operating cost and its convenient facility for carrying merchandise, instruments or luggage in the rear.

"Chevrolet Superior model roadster is the lowest-priced quality automobile meeting their requirements and costs least for operation and maintenance. No business or professional man or woman can buy any low-priced car more economical than this quality product.

"It saves valuable time, annihilates distance, transports the driver to his destination in comfort and greatly broadens the sphere of his activities. It makes him independent of railroads and enables him to make the maximum number of calls per day at the least possible expenditure of time and money. His luggage, samples or instruments are always at hand without the bother and expense of packing, shipping, checking or portering.

"It costs less to buy and maintain than a horse and buggy, is tireless in service and many times more efficient. Because of the reduced passenger carrying capacity of the roadster, it costs even less for gasoline and tires than the touring car, and therefore provides the most economical motor transportation available.

"Distinctive Features

"Low cost of operation. Chevrolet leads among all automobiles in gasoline mileage. Oil consumption is so low as to surprise all new owners who have driven any other car. Tire mileage is unsurpassed.

Extensive service facilities. There are about 5,000 Chevrolet dealers and more than 5,000 part depots in this country and both of these classes are being increased rapidly.

"Driving comfort. All models are comfortably upholstered, have double ventilating windshields. (Ternstedt regulated windows on all closed cars), and motors that are properly cooled.

"Curtains open with doors. This modern convenience applies to all open models.

Vacuum feed on all models, with tank in rear.

"Demountable rims. It is a simple, quick job to change rims on any Chevrolet.

"Improved design. With the new high hood, crowned panelled fenders, sloping windshield, plate-glass windows, large radiator and drum type headlights, stream lines and fine finish Chevrolet takes its place among the best class of artistic cars, and can and will be a source of pride to every owner.

"Fisher bodies. All closed cars have Fisher bodies, known to be the highest type of construction and standard on the best grade of closed cars, even those selling at the highest prices.

"A study of the specifications and whatever model meets your requirements will disclose numerous quality features not here mentioned for lack of space.

"By all means, you owe it to yourself to know the Chevrolet before buying any car at any price.

"Equipment

"Standard equipment includes starter and electric lights connected to the battery, barrel type head lamps, legal lenses, speedometer, oil pressure gauge, ammeter, demountable rims with extra rim, tire carrier and license holders, double adjustable windshield, complete tool equipment, and on open models one man top and side curtains which open with the doors. Closed models equipped with straight side cord tires, sun visor, windshield wiper, and dash light.

MERCHANDISING 275,000 MILES WITH AN 'OLDS'

One of the old Greek philosophers once remarked that "A fair exterior is a silent recommendation." The subject of this sketch, L. L. Tidd of Chicago, who operates a high-class private taxi service, evidently share the same belief, for his cars are always clean and shiny, inside and out.

And Mr. Tidd is nothing if not systematic. When asked how long the car had been in operation (the "55" came out in 1915) he made reference to a pocket memo and gave this surprisingly efficient answer: "This car is just seven years nine months and 14 days old. I bought it new on May 1, 1915, and during that time it has covered over 275,000 miles."

Among other interesting things told about the car and its performance, Mr. Tidd said that the car's average service on each set of tires is from 20,000 to 30,000 miles. The battery was never out of the car until December 14, 1922. He has driven this Oldsmobile once to the Atlantic coast and at another time to Los Angeles. He related with particular satisfaction its performance during a friendly rivalry on the famous Tuscarora hill near Harrisburgh, Pennsylvania, when his Oldsmobile alone, of all the contestants, was able to make this steep ascent in high gear.

During its years of service this car has earned its owner an amount equal to seven times its original cost, or a total of over $40,000. This Oldsmobile is a Model 55, six-cylinder touring car with limousine body and is equipped with Delco ignition. Mr. Tidd owns another Model 55 Oldsmobile with a record nearly as interesting and he is confident that each of these cars will give him at least five more years of dependable service.

TIME FOR WILD FLOWERS IS HERE

Say, wild flower lovers, step into your motor car and drive out in any direction and soon you will reach the places where the first wild flowers of the season are pushing their buds above the earth, ready to act as advance agents for Miss Springtime, and to provide motorists with beautiful bouquets of myriad hues.

The "Star of Bethlehem," wild cyclamen or "shooting star," the yellow violet or Johnny-jump-up, wild yellow jonquil and a score of other varieties are now blooming.

The San Fernando valley, the canyon leading to Brent's Mountain crags in the Santa Monica mountains, the hills of Griffith Park (where flowers may be enjoyed, but not picked), Beverly Hills, the hills around La Crescenta, the Santa Clara valley—these are just a few of the many places where wild flowers may be found.

California has long been famous for her wild flowers, but they will some day be practically unknown unless motoring parties curb their unreasonable desire to pick every flower they can possibly find when they go into the country.

TIRE TOPIC

Tires should be neither under-inflated nor over-inflated. If too soft, they will heat up and wear out quickly. If they are too hard, they make harder riding and require more gasoline consumption, because the soft tire wraps itself around an obstacle, whereas a hard tire does not yield, but must be pushed over the obstruction.

EFFICIENT IGNITION

To prevent wires from breaking every ignition wire should have a terminal soldered at each end. This will also insure firm contact.

ANOTHER REO RECORD

LOS ANGELES TO PHOENIX
671 Miles in 21 Hours, 18 Minutes

Via Victorville, Barstow, Needles, Kingman, Seligman, Prescott and Wickenburg

This Reo Six, seven-passenger touring car, completely equipped with top, fenders and windshield—stock in every respect except for Hartford shock absorbers and Silvertown Cords—broke the best previous record for time over this route, with its heart-breaking desert and mountain roads, by 1 hour 26 minutes.

Last year a stock model Reo, with the same equipment and driven by the same men—Charles H. Bigelow and Dave F. Fassett — established a new record from Salt Lake to Los Angeles of 26 hours 15 minutes for the 853 miles, and also a new round-trip record, Los Angeles to Phoenix and return, of 34 hours 48 minutes. These Reo records still stand.
